| | | Female | 85 | China & Vietnam | - | - | NA | - | 85 | 85 | 85 | - | China & Vietnam |

Remarks/Market Observations:

The following observations were gathered from market personnel and vendors this week:

- The prevailing prices of Bangus and Tilapia remain stable due to the enough supply plus the same demand at the Navotas Fish Port.
- Volume of Local Galunggong unloaded at Navotas Fish Port this week continue to be limited amid the heavy rainfall and the current lean fishing season.
- More Imported Galunggong were noted at Navotas Fish Port this week amid the increase in demand as the imported commodity is treated as a substitute commodity for fresh commodities, which are low in availability. This also resulted to an increase in the selling price of Imported Galunggong.
- Other fresh fishery commodities available at Navotas Fish Port are Galunggong "Babae", Tambakol, Sap-Sap, and Dalagang Bukid, among others.
- Top fishery commodities at the Navotas Fish Port are sourced mainly from the following areas:
 - Bangus - Pangasinan
 - Tilapia - Batangas
 - Local galunggong – Palawan
- Same preventive measures such as wearing of face mask and face shield, white boots and shirt, requirement of quarantine passes upon entry, and mandatory temperature check are still being implemented by the Philippine Fisheries Development Authority (PFDA) to avoid COVID-19 transmission inside the fish port.
- Data gathering at Navotas Fish Port is conducted through phone calls or SMS in coordination with market masters and administrators, vendors, and stall holders in view of the Bureau's suspension of physical monitoring activities since July 21, 2020. Physical monitoring will resume once safety of enumerators in the monitored wet markets are ascertained.
