Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Small-sized Local-fresh Galunggong continue to dominate the monitored markets this week. However, higher volumes of medium-sized Local-fresh Galunggong (sourced from Palawan and Lucena, Quezon) were noted in the monitored retail markets this week, resulting to the relatively lower selling price of the commodity. Similarly, medium-sized Alumahan also has unstable availability in the monitored retail markets. This may have been brought by the unavailability of the commodity in major fish ports, particularly Navotas Fish Port. Available supplies in the markets are mostly large-sized sourced from Lucena, Quezon. Despite the higher availability of its local variant, Imported-frozen Galunggong remain available in the monitored retail markets but in lower volumes compared to previous weeks. For Bangus and Tilapia, sufficient supply and stable prevailing prices were noted in the monitored retail markets. Top fishery commodities in the 16 monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan b. Tilapia - Batangas c. Local Galunggong -Navotas Fish Port (Palawan) & Lucena, Quezon d. Alumahan - Malabon Fish Port (Lucena, Quezon) Low influx of buyers remain apparent in most of the monitored markets. As a result, vendors are either selling remaining unsold stocks from previous day or getting only limited volumes of fish for selling to ensure that all stocks are sold out by the end of the day. Due to low sales, some vendors from Malabon Central Market were said to be peddling their fishery commodities in the nearby areas to avoid further loss of profit. Higher selling price of some fishery commodities were recorded in the monitored secondary markets, particularly Mandaluyong, Marikina, Makati, Kamuning, Galas, and Tandang Sora Markets, as these markets only source supplies from primary markets such as Farmers Market. As COVID-19 cases continue to increase, market administrators continue to implement precautionary safety measures in the monitored markets to avoid further spread of the virus. Among these measures are mandatory wearing of face masks and face shields as well as regularly scheduled cleaning and disinfection. No physical price monitoring activities were conducted at Pasay Public Market and Navotas Fish Port this week due to the recent surge of COVID-19 cases in each cities.
