<b>Remarks/Market Observations:</b>	<p>The following observations were gathered during the actual price monitoring activities this week:</p> <ol style="list-style-type: none"> <li>Sufficient volumes of fresh marine commodities, especially small-sized Local-Fresh Galunggong, were noted in the monitored markets this week. Small volumes of medium-sized Local-fresh Galunggong were also available; however, some were noted to be derived from fish tubs of small-sized Galunggong.</li> <li>With the availability of its local variant, Imported-frozen Galunggong was noted to have lesser availability in the monitored markets this week. In addition, vendors in the markets prefer to sell local-fresh galunggong over the imported variant as it is usually more preferred by consumers.</li> <li>Alumahan, on the other hand, had limited and unpredictable availability in the monitored markets this week coming mainly from Lucena, Quezon.</li> <li>Aquacultured commodities, particularly Bangus and Tilapia, continue to have stable availability and prices in the monitored retail markets.</li> <li>Top fishery commodities in the monitored markets were sourced mainly from the following: <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local-fresh Galunggong - Navotas Fish Port</li> <li>Imported-frozen Galunggong - Navotas Fish Port</li> <li>Alumahan - Malabon</li> </ol> </li> <li>"Matumal na bentahan" and lesser operational fish stalls were noted in the monitored markets as consumers and vendors continue to take precaution against COVID-19. More specifically, some vendors are opening their fish stalls on weekends where influx of buyers is higher. In addition, due to the low demand, vendors are opting to sell their fishery commodities at a cheaper price in the afternoons to ensure that all supplies are sold out by the end of the day.</li> <li>Market administrators continue to ensure the strict implementation of safety standards in accordance with the General Community Quarantine (GCQ) protocols to mitigate the further spread of COVID-19. Among these measures are wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection.</li> <li>Due to the recent surge of COVID-19 cases in Metro Manila, physical monitoring activities in the eleven (11) retail markets conducted by BFAR FIDSSD are temporarily suspended beginning March 23 and will resume once safety of enumerators are ascertained. Also, due to Pasay LGU's implementation of hard lockdown in selected areas, physical monitoring in Pasay Public Market (as conducted by BFAR-NCR) is also temporarily suspended until further notice.</li> </ol>																						
<p>(-) - Price and Volume not available during price monitoring</p> <p>NA - Source Area not available during price monitoring</p> <p>Markets 1-11 - monitored by BFAR-FIDSSD (CO) Enumerators</p> <p>Markets 12-18 - monitored by BFAR-NCR Enumerators</p>
