Remarks/Market Observations:	<p>The following observations were gathered during the actual price monitoring activities this week:</p> <ol style="list-style-type: none"> Sufficient volumes of fresh marine commodities, particularly Local-fresh Galunggong, were noted in the monitored markets this week. Relative to this, lesser displays of Imported-frozen Galunggong were noted as vendors opt to sell the local variant as it is more preferred by the consumers. Alumahan, on the other hand, have limited and unpredictable availability in the monitored retail markets. Majority of the said supplies were noted to be large in size, and from Lucena, Quezon. On the other hand, quacultured commodities such as Bangus and Tilapia have sufficient availability and stable prices in the monitored markets. Top fishery commodities in the monitored markets were sourced mainly from the following: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local-fresh Galunggong - Malabon Fish Port Low demand for fishery commodities remain apparent in most markets. With this, vendors are adapting ways to ensure that all fish displays are sold out by the end of the day. Among these measures are selling limited volumes and variety of fishery commodities. Meanwhile, some vendors are opening their fish stalls only on weekends where there is higher influx of people. In accordance with the implementation of Modified Enhanced Community Quarantine (MECQ) in NCR Plus, market administrators are continuously ensuring the strictly implementation of precautionary measures against COVID-19 such as but not limited to wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection. In view of the surge in COVID-19 cases, no physical price monitoring activity was conducted at Pasay Public Market and Navotas Fish Port Markets 3-5. Meanwhile, in the markets monitored by BFAR CO, data gathering is done via text and call and covers only the Top 4 Commodities (Bangus, Tilapia, Local-fresh & Imported-frozen Galunggong, Alumahan). Resumption of physical price monitoring activities in the monitored markets will be subject to risk assessment with the top management. Same with Pasay Public Market that is being monitored by BFAR-NCR due to strict lockdown in the area per announcement of Pasay City Government.
