Remarks/Market Observations:																						
CAR																						
<p>Week 1-5 (July 1-31)</p> <ol style="list-style-type: none"> No significant changes in the prices of fishery commodity There are set fixed price for some fishery commodities. Price fluctuations depend on the seasonality of fish species and on the occurrence of special occasions/holidays. There are limited number of species/commodity in the Abra and Ifugao provinces. Most fishery commodities are sourced out from other regions and only a few are derived from CAR. 																						
R 01																						
<p>Week 1-2 (July 1-13)</p> <ol style="list-style-type: none"> There is an observed increase in the price of some commodities due to the increased demand from Dagupan City. Majority of the commodities are chilled and sourced from other provinces or regions. <p>Week 3-4 (July 14-20)</p> <p>No observation</p> <p>Week 5 (July 28-31)</p> <ol style="list-style-type: none"> Majority of the fishery commodities in Vigan are chilled because they are imported from other regions and other province. There is no fish supply from the locality due to the rough seas caused by the low pressure.
