**REMARKS AND OBSERVATIONS**

**CAR**

**Week 1: June 1-6, 2020**  
 In Abra and Ifugao, only top Bangus, Tilapia, and Local Galunggong were available. Squid is dependent on availability from regions.  
 Markets continue to source from Dagupan, Pangasinan and Agoo, La Union due to hampered trading operations from other regions (i.e. NCR, Region III and IV) amid the implementation of Enhanced Community Quarantine (ECQ) in Luzon

**Week 2: June 7-13, 2020**  
 Only Bangus, Tilapia, and Galunggong were available in the two markets (Abra and Ifugao)  
 Fishery commodities in Cordillera Region are sourced from Dagupan, Pangasinan, Agoo, La Union and shipped from Navotas Fish port from other Regions (i.e. NCR, Region III and IV)

**Week 3: June 14-20, 2020**  
 Low volume of commodities observed in the monitored markets in response to the low demand.  
 In Nueva Ecija, price of Bangus had a slight increase this week.

**Week 4: June 21-30, 2022**  
 Prices of fishery commodities are stable this week. No major price fluctuation were observed in all monitored markets.  
 Only Bangus, Tilapia, and Galunggong are available in the two markets (Abra and Ifugao).  
 Fishery commodities in the region are mostly sourced from Dagupan, Pangasinan, Agoo, La Union.

**R1**

Urdaneta City Public Market (Pangasinan): Sales of vendors continue to be low amid the COVID-19 pandemic.  
 Magsaysay Public Market, Dagupan City, Pangasinan: No significant price changes for most fish commodities. Only few vendors are allowed in the market.  
 In Vigan City Public Market (Ilocos Sur), market schedules have been lifted upon the shift to Modified General Community Quarantine in the province.  
 City of San Fernando Public Market (La Union): About 90% of fishery stalls in the market are now operational. Market schedule has been segmented per barangay.

**R3**

Some of the data are gathered via phone call and there is a low volume of commodities due to the lower number of buyers due to scheduled market days.

**R4A**

Prices of fishery commodities, especially marine species, were higher due to low supply.

**4B**

Market situation is relatively stable. No fluctuations in price, supply, and demand.

**R6**

In Kalibo Public Market, abundant supply of fishery commodities are observed. More buyers are also observed in markets.
