NCR																					
<p>Week 1 (May 1-4)</p> <p>There is enough supply of Bangus and Tilapia in the monitored markets in NCR. However, the demand from the buying public is low (i.e., matumal ang bentahan). As for Galunggong, According to vendors, the supply of the said commodity decreased this week. It was also noted that majority of the available Galunggong in the monitored markets are small-sized. Despite these observations, the prevailing price of the three commodities remain stable the whole week at Php160.00/kg for Bangus, Php100.00/kg for Tilapia, and Php160.00/kg for Galunggong.</p> <p>*It was derived from market interviews that some markets vendors in NCR are limiting their supply of fishery commodities as a response to the low demand from the buying public.</p> <p>*Based on the team's actual price monitoring, there is an abundance in the supply of Tulingan (Auxis rochei) in majority of the monitored market in NCR.</p> <p>*In some monitored markets in NCR, the supply of Bangus, Tilapia and Galunggong are being sold in mixed sizes.</p> <p>*According to market vendors, the supply of Hipon and Sugpo decreased in some of the monitored markets in NCR this week.</p>																					
<p>Week 2 (May 5-11)</p> <p>There is enough supply of Bangus and Tilapia in the monitored markets in NCR. However, the demand from the buying public is low (i.e., matumal ang bentahan). As for Galunggong, According to vendors, the supply of the said commodity decreased this week. It was also noted that majority of the available Galunggong in the monitored markets are small-sized. Despite these observations, the prevailing price of the three commodities remain stable the whole week at Php160.00/kg for Bangus, Php100.00/kg for Tilapia, and Php160.00/kg for Galunggong.</p> <p>*It was derived from market interviews that some markets vendors in NCR are limiting their supply of fishery commodities as a response to the low demand from the buying public.</p> <p>*Based on the team's actual price monitoring, there is an abundance in the supply of Tulingan (Auxis rochei) in majority of the monitored market in NCR.</p> <p>*In some monitored markets in NCR, the supply of Bangus, Tilapia and Galunggong are being sold in mixed sizes.</p> <p>*According to market vendors, the supply of Hipon and Sugpo decreased in some of the monitored markets in NCR this week.</p> <p>*No price monitoring activity conducted at Navotas Fish Port (Markets 3, 4, and 5) due to no availability of enumerator.</p>																					
<p>Week 3 (May 12-18)</p> <p>Based on the team's actual price monitoring, there is a noticeable decrease in the number of stalls in the monitored markets in NCR last May 14, 2019 due to the election period. It was also noted that the demand for the three commodities is still low (i.e., matumal ang bentahan), which might also contribute to the relatively low prices of the commodities. In relation to these observations, the prevailing retail price of medium-sized Bangus decreased by Php10.00/kg and is currently at Php150.00/kg. As for medium-sized Tilapia and Galunggong, the price remained at Php100.00/kg and Php160.00/kg, respectively.</p> <p>*It was derived from market interviews that some markets vendors in NCR are limiting their supply of fishery commodities due to the low demand from the buying public.</p> <p>*According to market vendors, there is an abundance in the supply of Tulingan (Auxis rochei) in majority of the monitored market in NCR but some of that commodity is not in good condition.</p> <p>*It was also observed that the supply of some high valued marine fishes (e.g., Lapu-lapu and Maya) and some seaweeds (e.g., Lato and Guso) are lesser this week in majority of the monitored markets in NCR.</p> <p>*The supply of Bangus, Tilapia and Galunggong in majority of the monitored markets are being sold in mixed sizes.</p> <p>*No price monitoring activity conducted at Farmers and Mega Q markets due to no availability of enumerator.</p>																					
<p>Week 4 (May 19-25)</p> <p>*The prevailing price retail price of medium-sized Bangus and local Galunggong decreased by Php10.00/kg and Php20.00/kg, respectively from last week's price of Php150.00/kg for Bangus and Php160.00/kg for local Galunggong. As for Tilapia, the prevailing price remain unchanged at Php100.00/kg. According to vendors, the supply of the three commodities are stable but the demand from the buying public remains low (i.e., matumal ang bentahan) which might contribute to the relatively low price of the three commodities.</p> <p>*Majority of the local Galunggong in the monitored markets are medium to large-sized.</p> <p>*Based on the team's actual monitoring, the supply of Bangus, Tilapia and local Galunggong in some of the monitored retail markets are being sold in mixed sizes.</p>																					
<p>Week 5 (May 26-31)</p> <p>*The prevailing price retail price of medium-sized Bangus and local Galunggong decreased by Php10.00/kg and Php20.00/kg, respectively from last week's price of Php150.00/kg for Bangus and Php160.00/kg for local Galunggong. As for Tilapia, the prevailing price remain unchanged at Php100.00/kg. According to vendors, the supply of the three commodities are stable but the demand from the buying public remains low (i.e., matumal ang bentahan) which might contribute to the relatively low price of the three commodities.</p> <p>*Majority of the local Galunggong in the monitored markets are medium to large-sized.</p> <p>*Based on the team's actual monitoring, the supply of Bangus, Tilapia and local Galunggong in some of the monitored retail markets are being sold in mixed sizes.</p>
