Remarks/Market Observations:

CAR

No significant changes of prices of fishery commodities in the Cordillera Region.
Prices of some fishery commodities depends on the sources of supply.
Prices may fluctuate depending on the volume of stocks/supply and number of consumers (supply-demand)
Farmed species of fish is more expensive than those caught on wild.
You may notice some of fishery commodities have the fixed price.
Some are found or caught in the locality, therefore, lower prices.

R 01

Magsaysay Market is now on normal operation. Foul smell & wet floors can be observed. The bangus are sourced from Binmaley, Lingayen and Dagupan; seaweeds from Bolinao; Tilapia (20 tons) from Bulacan and Pampanga
Dagupan, Pangasinan: Magsaysay Market is still underwater due to the continuous moonsoon rain. Foul odor can smell.
Bolinao Public Market: Low supply of fishery production supply in the market as of to date due to unavailability of fish deliver from the small or large scale fisherman and other commercial fishing vessel caused by weather condition as well.

R 02

(No Observation)

R 03

Prices of fresh fish increase because of not enough supply.

R 12

General Santos City Public Market- There is a price increase in fish due to less supply of fish because of the typhoon.

Lebak Public Market - The supply of fish is enough due to good weather condition.

Cotabato City Central Arcade Market - The supply of fish is not enough so the price of fish is still high.

Koronadal Public Market - There is a decrease in price due to abundant supply of fish

Kalamansig- The price of fish is still high due to less supply of fish because of the bad weather condition.

R 13

Prices of some commodities decreased due to a good weather condition

Some commodities are not available at the public market

More fish stalls vacant

Prices of some commodities decreased due to good weather condition.

ARMM

Marawi City Market is temporarily transferred to Saduc Market (small market) and there were only two (2) vendors in the area.

NA- Not Available During Price Monitoring
