		Female	-	85	-	-	85	85	China, Vietnam	

**Remarks/Market Observations:**

The following observations were gathered from market personnel and vendors for the month of October:

- Local-fresh Galunggong was observed to have unstable unloadings at Navotas Fish Port as the *Habagat*, lean fishing season, and rainy weather brought by the five (5) typhoons this month hampered fishing and transport operations. In fact, on some days, only one (1) fishing vessel unloads Local-fresh Galunggong at the port, resulting to price fluctuations of the commodity.
- Stocks of Imported-frozen Galunggong was available at Navotas Fish Port this month, except on the third week of the month where no imported commodity was available as importers were not allowed to sell.
- Supplies of Bangus and Tilapia at Navotas Fish Port continue to be stable as volumes from major source areas were available.
- Following are the dominant source areas of the top fishery commodities:  
 Commodity                      Wholesale (Navotas Fish Port)  
 Bangus                          Pangasinan  
 Tilapia                              Batangas  
 Local Galunggong              Palawan
- Safety measures such as, but not limited to, wearing of face masks and face shields, mandatory temperature checks and hand disinfection are continuously implemented at the monitored markets as precaution against the increasing number of COVID-19 cases.

(-) - Price and Volume not available during price monitoring  
 NA- Source Area not available during price monitoring
