| Remarks/Market Observations: | <p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Sufficient supplies of fresh marine commodities, especially Local-fresh Galunggong, were observed in the monitored retail markets this week. Due to the sufficient supply of its local-fresh variant, limited supply of Imported-frozen Galunggong were noted this week. More specifically, only Quinta Market was noted to have displays of the imported commodity this week. Alumahan, on the other hand, has very unstable and limited supply at the monitored retail markets. This week, majority of the available supplies are large in size sourced mainly from Lucena, Quezon. Aquacultured commodities like Bangus and Tilapia remained to have stable prices and sufficient supplies to cater the demand of consumers. Top fishery commodities in the sixteen (16) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong - Navotas Fish Port (Palawan) & Lucena, Quezon Imported Galunggong- Navotas Fish Port Alumahan - Malabon Fish Port (Lucena, Quezon) Low demand for fishery commodities remain apparent in the monitored retail markets this week as consumers continue to take precaution against COVID-19. To avoid spoilage of supplies and loss in profit, vendors are opting to do the following: <ol style="list-style-type: none"> Lower their selling price just for them to sell; Not opening their stalls daily or open during weekends only; and Limit their volume of supply and variety of fish commodities for seling. Precautionary safety measures are observed in the monitored retail markets to protect vendors and consumers against COVID-19. Among these measures are wearing of face masks and face shields, mandatory temperature checks, observance of physical distancing, and regularly scheduled cleaning and disinfection, among others. As COVID-19 cases in Metro Manila continue to increase, physical monitoring activity in the eleven (11) retail markets as conducted by BFAR FIDSSD remain temporarily suspended beginning March 23 until further notice. On the other hand, due to suspension of PM activity in Pasay Public Market in the past few weeks, with strict lockdown in the area per announcement of Pasay City Government, BFAR-NCR has diverted the PM activity at Ugong Valenzuela Market on May 4. | | | | | | | | | | | | | | | | | | | | | | | |
