Remarks/Market Observations: The following observations were gathered during the actual price monitoring activities this week: 1. Ample displays of Local-fresh Galunggong in mixed sizes and different variants such as babae (<i>Decapterus russelli</i>), lalaki (<i>Decapterus macrossoma</i>), balsa, and burot were noted in the monitored retail markets this week. For medium-sized Local-fresh Galunggong (male variant), some markets were recorded to have lower prices this week due to the lower quality (in terms of freshness) of available supplies of the commodity in selected markets, sourced mainly from Navotas Fish Port (wholesale). 2. With the continuous sufficient availability of its local-fresh variant, there remains to be no medium-sized Imported-frozen Galunggong noted in all monitored retail markets. However, limited volumes of large-sized Imported-frozen Galunggong were recorded in some monitored markets. 3. For Alumahan, supplies of the commodity remain very limited with prevailing prices at wide disparities. The differences in price may have been caused by the varying sources of supplies in the monitored markets. More specifically, Alumahan sourced from Navotas Fish Port (wholesale) this week were noted to be of lower in quality in terms of freshness (i.e., soft flesh, slightly distended belly). On the other hand, good quality was noted among Alumahan supplies coming from Malabon Fish Port. 4. For aquacultured commodities, particularly Bangus and Tilapia, there continues to be no changes recorded in the prevailing retail prices as supplies of both commodities remain sufficient to cater to the demand from the buying public. 5. Top fishery commodities in the monitored markets were sourced mainly from the following: a. Bangus - Bulacan b. Tilapia - Batangas c. Local-fresh Galunggong - Navotas Fish Port d. Imported-frozen Galunggong - NA e. Alumahan - Malabon Fish Port 6. Some vendors continue to sell on an alternate-day schedule or only during weekends amid the low demand from consumers. Meanwhile, other vendors are noted to be selling lower volumes and/or limited variety of fishery commodities to avoid spoilage and ensure that all supplies are sold out by the end of the day. 7. As Metro Manila and its adjacent provinces (Cavite, Rizal, Laguna, and Bulacan) remain under General Community Quarantine (GCQ), safety measures (i.e., wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) remain observed in the monitored markets as continued precaution against COVID-19. 8. As COVID-19 cases in Metro Manila continue to increase, physical monitoring activity in the eleven (11) retail markets as conducted by BFAR FIDSSD remain temporarily suspended beginning March 23 until further notice. On the other hand, due to suspension of PM activity in Pasay Public Market in the past few weeks, with strict lockdown in the area per announcement of Pasay City Government, BFAR-NCR has diverted the PM activity at Ugong Valenzuela Market on May 4.
