BASIL

Balik Sigla sa Ilog at Lawa

Rationale

Lakes, rivers and reservoirs are located in upland and landlocked areas where there is deficiency in fish supply. Small fisherfolks in the areas are dependent in the resource both for food and source of livelihood. These resources offer potential for fish production and socio-economic advancement.

The program aims to rehabilitate/restore the physical conditions of lakes, rivers and reservoirs, enhance the fisheries and repopulate indigenous species in support of biodiversity conservation, poverty alleviation and food sufficiency.

Development Framework

LAKE PROFILING

- Physical biota

SOCIAL PREPARATION

- Organizing fisherfolks

LAKE REHABILITATION

- Clean-up activities
- Establishment of sanctuaries / brush park
- Fish dispersal

LAKE MANAGEMENT

- LGU Ordinance
- Development plans
- Monitoring and reporting of catch
