Remarks/Market Observations:	The following observations were gathered during the actual price monitoring activities this week:																							
	<p>1. Supplies of fresh marine commodities were noted to have a lesser volume of displays this week due to bad weather condition brought by Southwest Monsoon. Additionally, the occurrence of full moon or "Pink Moon" on June 25 also affected the displays of fresh marine commodities. On the other hand, Local-fresh Galunggong in mixed sizes and different variants (i.e. balsa, burot, lalaki) were still available. Specifically, for medium-sized Local-fresh Galunggong, limited but still sufficient displays were noted in all monitored retail markets this week.</p> <p>2. For medium-sized Imported-frozen Galunggong, it remains unavailable in all monitored retail markets.</p> <p>3. Still, limited supplies of medium-sized alumahan were noted in all monitored markets this week sourced from Malabon, Navotas, Farmers, and Lucena.</p> <p>4. Ample supplies of aquacultured commodities, particularly Bangus and Tilapia, were noted this week. Relative to this, prevailing prices of the said commodities remain steady in most monitored retail markets.</p> <p>5. Top fishery commodities in the monitored markets were sourced mainly from the following:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local-fresh Galunggong - Navotas Fish Port Imported-frozen Galunggong - NA Alumahan - Malabon Fish Port <p>6. A number of closed fish stalls were observed in most monitored retail markets due to the low influx of buyers and "maternal na bentahan". Additionally, most vendors limit the volume and variety of fish displays to avoid spoilage. Nonetheless, precautionary measures against COVID-19 (e.g wearing of mask and face shields) are continuously implemented in the monitored markets.</p> <p>Fluctuations in the prices of the top fifteen (15) and other commodities are influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scylla serrata</i> or Alimango- lowest prevailing price of Php450.00/kg was recorded in Malabon Central where supplies were relatively smaller in size; thus, were sold at a lower price. Highest prevailing price of Php900.00/kg was noted in Guadalupe Market where supplies were larger in size. <i>Acanthopagrus</i> or Tulingan- Lowest prevailing price of Php160.00/kg was recorded in Malabon Central which is a primary type of market or "bagsakan". Highest prevailing of Php300.00/kg was noted in Trabajo Markets which are secondary type of markets that offers relatively higher price range. <i>Sardinella fimbriata</i> or Tunsop- lowest prevailing price of Php80 /kg was recorded in Navotas Fish Port retail where supplies were reported to be in lower quality in terms of freshness hence the supplies from Farmers market are of in better quality source from Lucena which recorded the highest prevailing price of Php150.00 /kg. <i>Caranx sp.</i> or Talakitok- Lowest prevailing price of Php280.00/kg was recorded in Commonwealth and Mega-Q Market where supplies are noted to be in smaller sizes as compared with the available supplies in Farmers and Guadalupe Market which are reportedly larger in size having the highest prevailing price of Php480.00/kg. <i>Scarus sp.</i> or Mol-mol- lowest prevailing price of Php100.00/kg was noted at Navotas Retail Market where supplies are abundant in volume and sourced directly from Navotas Fish Port. Highest prevailing price of Php320.00/kg was noted at Guadalupe Market where limited volumes were noted. In addition, Guadalupe Market is also a secondary market; hence, offers commodities at a higher price range. <i>Selaroides leptolepis</i> or Salay ginto- lowest prevailing price of Php450.00/kg was recorded in Guadalupe where supplies were relatively smaller in size; thus, were sold at a lower price. Highest prevailing price of Php300.00/kg was noted from Maypajo Caloocan Market where supplies were larger in size. <i>Trachinotus sp.</i> or Pampano- lowest prevailing price of Php350.00/kg was noted in Malabon Central Market where supplies were noted to be smaller in sizes as compared with the supplies in Mandaluyong Market price at Php450.00/kg which are reportedly larger in size. <i>Trichiurus lepturus</i> or Espada- lowest prevailing price of Php200.00/kg was noted at Commonwealth Market where supplies are of lower in quality in terms of freshness. In comparison, the highest prevailing price of Php360.00/kg were noted at Marikina Market where supplies are in better quality.
