Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Adequate volumes of local-fresh Galunggong "lalaki" (<i>Decapterus macrosoma</i>) were noted in all monitored retail markets this week. Majority of the supplies were sourced from Lucena, Quezon. Sufficient volumes of other Local Galunggong variant like "balsa" (<i>Decapterus macarellus</i>), "burot" (<i>Decapterus kurroides</i>), and "babae" (<i>Decapterus russelli</i>) were also recorded. Supplies of imported-frozen galunggong continue to be low. Only Balintawak market had available supplies of imported galunggong this week. This may be attributed to the sufficient volumes of local-fresh commodity and its variants (i.e., balsa, burot, galunggong babae). For alumaban, most of the supplies available were noted in large-sized. Supplies continue to be irregular and limited at the monitored markets this week. The prevailing retail prices of Bangus and Tilapia remained stable as supplies continue to be stable and sufficient at the retail markets. This may be attributed to the steady demand from the buying public. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong - Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) The low influx of consumers continues to be apparent in all the monitored retail markets. As a result, some vendors opted not to open their fish stalls or sell lower volumes in order to accommodate the low demand for fishery commodities. Price monitoring activity (physical and vis SMS) at Quinta and Trabajo Markets were temporarily suspended effective last July 5, 2021, until such time that the new enumerator has completed his on-bording program. Market administrators continue to implement and observe precautionary safety measures against COVID-19 in accordance with the General Community Quarantine (GCQ) protocols to ensure that vendors and consumers protected against the virus. Among these measures are wearing of facemasks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scomberomorus commerson</i> or Tangigue - Head (Php380/kg - Php600/kg) -lowest prevailing price of Php380.00/kg were recorded in Malabon Market where prices are lower as it is considered a primary market. Highest prevailing price of Php600.00/kg were noted at Mandaluyong Market where commodities are sold at a higher price as they sourced their supplies from nearby primary markets. <i>Epinephelus sp.</i> or Lapu-lapu (Php300 - Php450/kg) -lowest prevailing price of Php300.00/kg was recorded in Galas and Caloocan Markets where the available supplies were in small to medium size, hence, lower price. Highest prevailing price of Php450.00/kg was noted at Guadalupe and Marikina Markets where available supplies were in large-sized which resulted to a higher price. <i>Epinephelus sp</i> or Lapu-lapu - Red (Php300- Php480/kg) -lowest prevailing price of Php300.00/kg was recorded at Galas and Pasig Markets where the available supplies were in small to medium size, hence, lower price. Highest prevailing price at Php480.00/kg was noted at Farmers and Malabon Market where supplies were in good quality as they sourced them from Lucena, Quezon which resulted to a higher price. <i>Acanthurus sp.</i> or Labahita (Php90 - Php380/kg) -lowest prevailing price of Php90.00./kg were recorded at Navotas Market where available supplies were sourced directly from Navotas Fish Port which resulted to a lower price. Highest prevailing price of Php380.00/kg were noted at Guadalupe Market, where they sourced their supplies in a nearby primary market (Farmers) resulting to a much higher price. <i>Sphyrnaea sp.</i> or Torsilyo (Php200 - Php320/kg) -lowest prevailing price of Php200.00./kg were recorded at Mega-Q Market where available supplies were in low quality as they were supplies from previous market days. Highest prevailing price of Php320.00/kg were noted at Malabon Central Market where supplies were in good quality as they sourced them from
