Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Limited volumes of fresh marine commodities were observed in monitored retail markets this week due to bad weather condition brought by <i>Southwest Monsoon</i> (Habagat). Relative to this, the prevailing retail price of local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) and Alumahan increased to Php240.00/kg and Php300.00/kg respectively, this week. Meanwhile, displays of imported-frozen galunggong were noted this week as supply of its local-fresh variant remain low to cater the demand of buying public. In contrary, the prevailing retail prices of both bangus and tilapia were sustained this week at Php160.00/kg and Php120.00/kg, respectively. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan b. Tilapia - Batangas & Pampanga c. Local Galunggong - Navotas Fish Port (Palawan) & Lucena, Quezon d. Alumahan - Malabon Fish Port (Lucena, Quezon) "Matumal ang bentahan" continued to be apparent at the monitored retail market this week. This may be attributed to the minimal demand for fishery commodities due to low influx of buyers at the retail markets. Relative to this, most vendors do the following: <ul style="list-style-type: none"> a) Sell lower volumes or limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day; and b) Open their fish stalls on an alternate-day schedule or only during weekends where there is higher influx of people. Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Auxis thazard</i> or Tulingan Lapad - (Php160/kg - Php280/kg) -lowest prevailing price of Php1600.00/kg were recorded in Balintawak and Malabon Central Market where supplies recorded were smaller in sizes, which resulted to a lower price. Highest prevailing price of Php280.00/kg were noted at Guadalupe and Mandaluyong Market where supplies are reported to be larger sized as compared to the supplies in malabon and balintawak. <i>Auxis rochei</i> or Tulingan bilog (Php200 & Php300/kg) -lowest prevailing price of Php200.00/kg were recorded at primary type or "Bagsakan" Markets (Commonwealth Market and Pasig Market) which usually offers at a lower price. Highest prevailing price at Php300.00/kg were noted from secondary Markets (Ugong Valenzuela and Galas market) that are usually source their supplies from primary markets resulting to sell at higher price. <i>Siganus sp.</i> or Samaral Bataway/Danggit/Bawis/Malaga (Php320 - Php450/kg)- lowest prevailing price of Php320.00/kg was recorded in Guadalupe Market where the available supplies are of smaller in size, hence offer to a lower price. Meanwhile, highest prevailing price of Php400.00/kg was noted at Farmers Markets where the available
