REMARKS AND OBSERVATIONS

CAR

WEEK 1-July 05-09, 2021

Less demand of fishery commodities in the monitored markets.

WEEK 4-July 26-30, 2021

Limited supply of fishery commodities were observed due to bad weather condition.

R1

WEEK 1-July 05-09, 2021

Most of the fishery commodities came from Dagupan City, Bolinao, Pangasinan and Sto. Tomas, La Union. Presence of imported Galunggong was observed in San Fernando City Public, while fresh variant was available in other market.

WEEK 2-July 12-16, 2021

Most of the fishery commodities came from Dagupan City, Bolinao, Pangasinan and Sto. Tomas, La Union. Presence of imported Galunggong was observed in San Fernando City Public, while fresh variant was available in other market.

R2

WEEK 1-July 05-09, 2021

Sufficient supply of fishery commodities and prices are stable.

R3

WEEK 2-July 12-16, 2021

Different prices of some commodities due to different sources.

WEEK 3-July 19-23, 2021

Limited supply of fishery commodities due to bad weather condition.

WEEK 4-July 26-30, 2021

Limited supply of fishery commodities were observed due to unfavorable weather condition.

R4A

WEEK 1-July 05-09, 2021

Prices of fishery commodities especially marine species were high due to limited supply in other markets and bad weather condition.

WEEK 2-July 12-16, 2021

Prices of fishery commodities were high due to limited supply and bad weather condition.

WEEK 3-July 19-23, 2021

Prices of fishery commodities were high due to unfavorable weather condition.

WEEK 4-July 26-30, 2021

Price of fishery commodities were high due to limited supply.

R4B

WEEK 1-July 05-09, 2021

The price of fishery commodities increased due to high transportation expenses.

WEEK 2-July 12-16, 2021

The price of fishery commodities increased due to high transportation expenses.

WEEK 4-July 26-30, 2021

Price of fishery commodities increased due to high transportation expenses and bad weather condition.

R5																					
WEEK 1-july 05-09, 2021																					
Some of fishery commodities are not available due to heavy rainfall in the province.																					
WEEK 2-july 12-16, 2021																					
Some of the fishery commodities were not available due to bad weather condition.																					
WEEK 3-july 19-23, 2021																					
Absence of some fishery commodities were observed due to bad weather condition.																					
WEEK 4-july 26-30, 2021																					
Due to bad weather condition some of the fishery commodities are not available.																					
R6																					
WEEK 4-july 26-30, 2021																					
The supply of fishery commodities were sufficient, however low influx of buyers were observed due to COVID-19 restriction.																					
R7																					
WEEK 2-july 12-16, 2021																					
Limited supply of fishery commodities caused by bad weather condition.																					
WEEK 3-july 19-23, 2021																					
Limited supply of fishery commodities due to bad weather condition.																					
WEEK 4-july 26-30, 2021																					
Price of fishery commodities increased due to bad weather condition.																					
R8																					
WEEK 1-july 05-09, 2021																					
The prices of aquacultured commodities remained stable. However, marine fishery commodities increased due to bad weather condition. In addition, no new Red Tide advisory was recorded at Cambatutay Bay (Tarangnan, Samar), Coastal waters of Daran Island, Calubian, and Leyte. Although, shellfish ban was imposed in MATARINAO BAY (General MacArthur, Hernani, Quinapondan, and Salcedo in Eastern Samar), and IRONG-IRONG BAY (Catbalogan, Samar). All types of shellfish and <i>Acetes</i> sp. locally known as "Alamang or Hipon" gathered from these bays are NOT SAFE for human consumption.																					
WEEK 2-july 12-16, 2021																					
The price of fishery commodities were high due to bad weather condition. In addition, San Pedro Bay is POSITIVE of <i>Pyrodinium bahamense</i> , a toxic microorganism that causes Paralytic Shellfish Poisoning (PSP) hence, shellfish ban was imposed in the said area.																					
WEEK 3-july 19-23, 2021																					
Sufficient supply of fishery commodities were observed. However, SAN PEDRO BAY (Basey, Samar) and MATARINAO BAY (General MacArthur, Hernani, Quinapondan, and Salcedo in Eastern Samar) were POSITIVE for Paralytic Shellfish Poison (PSP) or toxic red tide. Hence, shellfish ban was imposed in the said affected area.																					
R9																					
WEEK 1-july 05-09, 2021																					
Supply of marine fishery commodities was sufficient. However, limited supply of aquacultured variants was recorded in the monitored market.																					
WEEK 4-july 26-30, 2021																					
Due to bad weather condition the supply of fishery comodities are limited, hence, the price increased.																					
R10																					
WEEK 1-july 05-09, 2021																					
Prices of primary commodities particularly tilapia, bangus and local fresh galunggong recorded to be high.																					
WEEK 3-july 19-23, 2021																					
Prices of fishery commodities were high and absence of some marine fishery comodities were observed due to bad weather condition.																					
WEEK 4-july 26-30, 2021																					
Low influx of buyers were observed due to COVID-19 restriction.																					
R11																					
WEEK 1-july 05-09, 2021																					
Limited supply of fishery commodities in some markets caused by bad weather condition.																					
WEEK 4-july 26-30, 2021																					
Price of fishery commodities increased due to limited supply.																					
R12																					
WEEK 4-july 26-30, 2021																					
Prices of fishery commodities were high due to limited supply.																					
R13																					
WEEK 1-july 05-09, 2021																					
The supply of fishery commodities was limited hence, high price.																					
WEEK 2-july 12-16, 2021																					
Limited supply of fishery commodities caused by inclement weather condition.																					
WEEK 3-july 19-23, 2021																					
Limited supply of fishery commodities were observed due to bad weather condition.																					
WEEK 4-july 26-30, 2021																					
Prices of fishery commodities were high due to transportation restriction.

WEEK 1-July 05-09, 2021																					
<p>1. More supplies of Local-fresh Galunggong were observed at the monitored retail markets this week compared in previous week where there is occurrence of Fullmoon. There are still other local variant of Galunggong recorded like "balsa"(Decapterus macarellus), "burot" (Decapterus kurroides) and "babae" (Decapterus russelli).</p> <p>2. Still, there is no reported supply of Imported-frozen Galunggong at the monitored markets this week. Vendors opted not to sell Imported-frozen Galunggong as consumers preferred buying local than imported.</p> <p>3. Supplies of Alumahan continue to be limited and irregular at the monitored retail markets. Most of the supplies are still in large-sized and sourced from Lucena, Quezon.</p> <p>4. No changes were recorded at the prevailing retail prices of Bangus and Tilapia due to the stable and sufficient supplies at the monitored retail markets.</p> <p>5. Top fishery commodities in the sixteen (16) monitored retail markets are sourced mainly from the following areas:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong -Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) <p>6. Galas, Kamuning, Marikina, Mandaluyong and Guadalupe retail markets have higher prevailing prices compared to other markets as they sourced their supplies from nearby primary market like Farmers Market.</p> <p>7. Low influx of buyers continued to be apparent at the monitored retail markets this week. To ensure every supplies are sold at the end of the day, most of the vendors do the following:</p> <ol style="list-style-type: none"> Sell only limited varieties of fishery commodities; Decrease their over-all supply for selling; Open only on weekends where there is high number of buyers. <p>8. Precautionary safety measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets.</p>																					
WEEK 2-July 12-16, 2021																					
<p>1. Sufficient supply of Local-fresh Galunggong "lalaki" (Decapterus macrosoma) noted at the monitored retail markets this week. Other Local Galunggong variant like "balsa" (Decapterus macarellus), "burot" (Decapterus kurroides), and "babae" (Decapterus russelli) were also recorded.</p> <p>2. In contrary, no supply of Imported-frozen Galunggong were observed at the monitored retail markets due to sufficient supply of its local variant. Vendors opted to sell Local-fresh Galunggong as it is more preferred by consumers.</p> <p>3. For medium sized alumahan, sufficient availability noted this week in most of the monitored markets.</p> <p>4. Supplies of Tilapia coming from Batangas observed to be limited this week, which may be due to the volcanic activity in Taal. Relatively, minimal changes on the prevailing price were noted on the said commodity this week.</p> <p>5. As the supply and demand of bangus remained sufficient in the market, no changes were noted in the prevailing prices of commodity this week.</p> <p>6. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong -Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) <p>7. "Matumal ang bentahan" continued to be apparent at the monitored retail market this week. This may be attributed to the minimal demand for fishery commodities due to low influx of buyers at the retail markets. Relative to this, most vendors do the following:</p> <ol style="list-style-type: none"> Sell lower volumes or limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day; and Open their fish stalls on an alternate-day schedule or only during weekends where there is higher influx of people. <p>8. Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets.</p>																					
WEEK 3-July 19-23, 2021																					
<p>1. The supply of Local-fresh Galunggong "lalaki" (Decapterus macrosoma) continued to be sufficient at the monitored retail markets this week. Other Local Galunggong variant like "balsa" (Decapterus macarellus), "burot" (Decapterus kurroides), and "babae" (Decapterus russelli) were also recorded.</p> <p>2. There is still no supply of Imported-frozen Galunggong observed at the monitored retail markets due to the sufficient supply of its local variant. Vendors opted to sell Local-fresh Galunggong as it is more preferred by consumers.</p> <p>3. Most of the supplies observed for Alumahan were large-sized. Only small volume of medium-sized Alumahan were recorded this week.</p> <p>4. No changes were noted in the prevailing prices of aquacultured commodities, Bangus and Tilapia as supplies remained stable and sufficient at the monitored retail markets. The steady demand by the buying public also contributed to stable retail prices.</p> <p>5. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong -Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) <p>6. Price monitoring activity (physical and vis SMS) at Quinta and Trabajo Markets were temporarily suspended effective last July 5, 2021, until such time that the new enumerator has completed his on-bording program.</p> <p>8. Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets.</p>																					
WEEK 4-July 26-30, 2021																					
<p>1. Limited volumes of fresh marine commodities were observed in monitored retail markets this week due to bad weather condition brought by Southwest Monsoon (Habagat). Relative to this, the prevailing retail price of local-fresh galunggong lalaki (Decapterus macrosoma)and Alumahan increased to Php240.00/kg and Php300.00/kg respectively, this week.</p> <p>2. Meanwhile, displays of imported-frozen galunggong were noted this week as supply of its local-fresh variant remain low to cater the demand of buying public.</p> <p>3. In contrary, the prevailing retail prices of both bangus and tilapia were sustained this week at Php160.00/kg and Php120.00/kg, respectively.</p> <p>4. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas & Pampanga Local Galunggong -Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) <p>5. Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets.</p>																					
General Observation																					
Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.																					

TOP FISHERY COMMODITIES																			NATIONAL							
Scientific Name	English Name	Local Name	CAR	1	2	3	4A	4B	5	6	7	8	9	10	11	12	13	NCR	Prevailing Price (Php/kg)	High	Low					
<p>1. <i>Acanthurus olivaceus</i> or Uring (Php 150-300/kg) - lowest prevailing price of Php 150.00/kg was recorded in Region 8 (Guiuan) where in the source of commodity is within the locality, hence lower price as compared to Region 1.</p> <p>2. <i>Caranx</i> sp. or Talakitok (Php 180-480/kg) - lowest prevailing price of Php 180.00/kg was recorded in Region 4B where in the supply of commodity was sufficient. Highest prevailing price of Php 480.00/kg was noted in Region 2 (Cagayan) where supplies were reportedly from NCR, hence the higher price.</p> <p>3. <i>Corypaena hippurus</i> or Dorado (Php 180-280/kg) - lowest prevailing price of Php 180.00/kg was recorded in Region R11 (Davao Oriental) where in the commodity was smaller in size as compared to Region 8 and also highest prevailing price affected due to bad weather condition.</p> <p>4. <i>Cypselurus</i> sp. or Iliw (Php 80-180/kg) - lowest prevailing price of Php 80.00/kg was recorded in Region 4B where in the said commodity has sufficient supply as compared to Region 11.</p> <p>5. <i>Gerrus</i> sp. or Latab (Php 60-280/kg) - lowest prevailing price was recorded in Region 8, where in the commodity was low quality in terms of freshness and sizes as compared to NCR.</p> <p>6. <i>Lethrinus</i> s sp. or Kanuping (Php 160-400/kg) - lowest prevailing price of Php 160.00/kg was recorded in Region 8 where in the said commodity has sufficient supply. Highest prevailing price of Php 400.00/kg were noted in Region 11 where supply is in lower volume.</p> <p>7. <i>Makaira mazara</i> or Malasugi (Php 230-450/kg) - lowest prevailing price of Php 230.00/kg was recorded in Region 9 where in the commodity has sufficient supply. Highest prevailing price of Php 450.00/kg were noted in Region 11 where limited supplies was observed.</p> <p>8. <i>Makaira nigricans</i> or Mantalaan (Php 300-500/kg) - lowest prevailing price of Php 300.00/kg was recorded in Region 8 where in the said commodity has sufficient supply as compared to Region 10.</p> <p>9. <i>Naso unicornis</i> or Surahan (Php 80-360/kg) - lowest prevailing price of Php 80.00/kg was observed in Region 4B where in the commodity was reportedly sufficient. Highest prevailing price of Php 360.00/kg were noted in Region 11 where supply was limited, hence the higher price.</p> <p>10. <i>Scarus</i> sp. or Mol-mol (Php 80-250/kg) - lowest prevailing price of Php 80.00/kg was recorded in Region 4B where in the said commodity was reportedly sufficient as compared to Region 11.</p> <p>11. <i>Selar boops</i> or Matangbaka (Php 120-260/kg) - lowest prevailing price of Php 120.00/kg was recorded in Region 4B where in the commodity was observed in high volume as compared to Region 8.</p> <p>12. <i>Siganus canaliculatus</i> or Danggit (Php 130-380/kg) - lowest prevailing price of Php 130.00/kg was recorded in Region 8 where in the commodity are smaller in sizes, hence lower the price compared to NCR.</p> <p>13. <i>Stolenphorus</i> sp. or Dilis (Php 80-200/kg) - lowest prevailing price of Php 80.00/kg were recorded in Region 4B where in the said commodity was reportedly lower in quality, hence lower the price compared to Region 8.</p> <p>14. <i>Tylosorus</i> sp. or Batalay (Php 80-220/kg) - lowest prevailing price of Php 80.00/kg were recorded in Region 9 where in the commodity was smaller in sizes as compared to Region 11.</p>
