Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, limited volumes of fresh marine commodities were noted among the monitored retail markets this week. This may be attributed to the following reasons: <ol style="list-style-type: none"> Occurrence of Intertropical Convergence Zone (ITCZ)/ Easterlies, where it affects the southernmost regions of Luzon, Visayas and Mindanao resulting to the hampered fishing activities; and Occurrence of fullmoon on 22 August 2021 wherein fishes are difficult to catch as they tend to stay at the bottom of the ocean. However, supplies of Local-fresh Galunggong remained sufficient at the monitored retail markets which resulted to a sustained prevailing retail price of Php200.00/kg this week. Supplies were mainly sourced from Lucena, Malabon, and Navotas Fish Port. There is still no displays of medium-sized imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>) observed at monitored retail markets this week as supplies of local-fresh commodity remained adequate to cater to the demand of the buying public. For aquacultured commodities, particularly Bangus and Tilapia, prevailing retail prices had remained stable due to the sufficient and steady supplies at the retail markets. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Palawan, Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) Low demand for buyers continues to be apparent in the monitored retail markets, especially as Metro Manila was still under Modified Enhance Community Quarantine (MECQ). As a result, vendors are selling lower volumes or limited variety of fishery commodities to ensure that all supplies are sold out by the end of the day. Also, others vendors are opening only on weekends where there is higher influx of people. Market administrators continue to implement and observe precautionary safety measures against COVID-19 in accordance with the Modified Enhanced Community Quarantine (MECQ) protocols to ensure that vendors and consumers protected against the virus. Among these measures are wearing of facemasks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Penaes monodon</i> or Sugpo (Php550/kg - Php750/kg) - lowest prevailing price of Php550.00./kg was recorded at Marikina Market where available supplies were sourced not in good quality as they were stocks from previous days which resulted to a lower price. Highest prevailing price of Php750.00/kg were noted at Guadalupe Market, where the available supplies are in good quality, hence, higher price. <i>Scylla serrata</i> or Alimango (Php450 - Php900/kg) - lowest prevailing price of Php450.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Fish Ports, hence, lower price. Highest prevailing price of Php900.00/kg was noted at Guadalupe Market where available supplies were sourced in primary markets which resulted to a higher price. <i>Portunus pelagicus</i> or Alimasag (Php350- Php550/kg) - lowest prevailing price of Php350.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Fish Ports, hence, lower price. Highest prevailing price of Php550.00/kg was noted at Guadalupe Market where available supplies were sourced in primary markets which resulted to a higher price. <i>Nemipterus sp.</i> or Bisugo (Php300- Php400/kg) - lowest prevailing price of Php300.00/kg was recorded at Marikina and Caloocan Markets where the available supplies were in small size which resulted to a lower price. Highest prevailing price at Php400.00/kg was noted at Mandaluyong and Marikina Markets where supplies were in large size which resulted to a higher price.
