Remarks/Market Observations:	The following observations were gathered from market personnel and vendors this week:																							
	<p>1. Minimal volumes of fresh marine commodities were observed in the monitored retail markets on August 31 to September 1, 2021, due to the bad weather condition caused by Intertropical Convergence Zone (ITCZ)/ Easterlies and implementation of Modified Enhance Community Quarantine (MECQ) in Metro Manila, wherein vendors opted to sell limited volumes of fishery commodities to ensure stocks are sold out. Nonetheless, the prevailing retail price for medium size local-fresh galunggong was sustained this week at Php200.00/kg as supply of the commodity remain sufficient to cater the demand of the buying public.</p> <p>2. Meanwhile, no displays of imported-frozen galunggong noted in the the monitored retail markets for the entire week as supply of its local-fresh variant remain available to cater the demand of buying public.</p> <p>3. For alumahan, minimal changes in the prevailing retail price was recorded this week due to limited availability of the commodity as fishing operation remain hampered caused by the occurrence of ITCZ in the country.</p> <p>4. For medium sized bangus, prevailing retail price was recorded at Php180.00/kg this week. Whereas majority of the supply was source from Bulacan and Pangasinan.</p> <p>5. There remains to have sufficient supply of medium sized tilapia among the monitored retail markets. Relative to this, sustained prevailing retail price of the commodity was noted this week.</p> <p>6. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:</p> <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Navotas Fish Port (Palawan) & Lucena, Quezon Alumahan - Malabon Fish Port, (Lucena, Quezon) <p>7. In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the ten (10) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong).</p> <p>8. Low demand for buyers continues to be apparent in the monitored retail markets, especially as Metro Manila was still under Modified Enhance Community Quarantine (MECQ). As a result, vendors are selling lower volumes or limited variety of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, others vendors are opening only on weekends where there is higher influx of people.</p> <p>9. Nonetheless, market administrators continue to strictly implement precautionary safety measures such as wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection in the monitored retail markets.</p>																							
	General Observations:																							
<p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Lethrinus</i> sp. or Kanuping - (Php300/kg -420/kg) - both prevailing prices were noted at Gudalupe Market, whereas the lowest prevailing of Php300.00/kg are reportedly smaller in size, which resulted to a lower price, as compared to the Php420.00/kg of the commodity which was noted to be in larger sizes, hence the higher price.</p> <p>2. <i>Loligo</i> sp. or Bisaya/Kalawang/ Lapis (Php140 - Php400/kg)- the lowest prevailing price of Php140.00/kg was recorded at Pasig Market which was reportedly lower quality as it is from the previous market days, as compared to the Php400.00/kg which was noted to be of better quality in terms of freshness and it was noted at Mandaluyong Market.</p>
