		Male	120	120	120	120	120	-	China
		Female	-	-	-	-	-	-	NA

Remarks/Market Observations:

The following observations were gathered from market personnel:

- In spite the occurrence of the Intertropical Convergence Zone (ITCZ)/ Easterlies in the country, sufficient volumes of fresh marine commodities were still noted this week at the Fish Port. Among the commodities recorded were tambakol, gulyasan, dalagang bukid, lapad, lumut, pusit. Relative to this, sufficient availability of supply for medium-sized Local-fresh Galunggong Lalaki (*Decapterus macrosoma*) was recorded this week with an actual price of Php155.00- Php178.00/kg source from Northern Palawan. Additionally, abundant availability of other variants such as Balsa (*Decapterus macarellus*) and galunggong babae (*Decapterus ruselli*) were also noted at the Fish port.
- Despite the sufficient availability of local galunggong, there remains to have available supplies of imported-frozen galunggong noted at the Fish Port.
- Meanwhile, prevailing retail price of medium sized Bangus was noted to be in steady level, price at Php100.00 & 140.00/kg. Among the major sources are Pangasinan, Bulacan and Laguna.
- There continues to have sufficient availability of supplies for medium sized tilapia this week at the Fish port. Relatively, lower prevailing price was recorded this week at Php90.00/kg source majority from Batangas.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Laguna, Pangasinan, Bulacan
 - Tilapia - Batangas
 - Imported galunggong - China
- Precautionary measures (e.g., wearing of face mask and face shields as well as white boots and shirts, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented by the Philippine Fisheries Development Authority (PFDA) at Navotas Fish Port Complex to safeguard vendors and buyers against COVID-19.

(-) - Price and Volume not available during price monitoring

NA- Source Area not available during price monitoring
