Remarks/Market Observations

The following observations were gathered from market personnel and vendors this week:

- Limited supply of fresh marine commodities were noted in the monitored retail markets this week. This might be due to the bad weather condition brought by Typhoon Jolina and Southwest Monsoon which affects the western section of Luzon, Visayas, and Mindanao. Relative to this, available supply of medium sized local fresh galunggong was observed in some markets (i.e., Farmers, Mega-Q, Trabajo, and Quinta) in sorted only, as majority of the supply was noted to be in smaller sizes. Despite the inadequate supply of medium sized local fresh galunggong, the prevailing retail price was sustained at Php200.00/kg in the monitored retail markets this week.
- Meanwhile, minimal volumes of medium sized imported-frozen galunggong was noted at Commonwealth and Mega-Q market this week, which might be caused by the limited availability of its local fresh variant in the monitored retail markets.
- For medium sized alumahan, higher prevailing price Php300.00/kg was recorded this week, which might be due to the limited supply of fresh marine commodities in the monitored retail markets.
- In contrary, ample supplies of aquacultured commodities were noted this week in the monitored markets. More specifically, for medium sized bangus lower prevailing price of Php160.00/kg was recorded while for medium sized tilapia price was sustained at Php120.00/kg this week.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong - Navotas Fish Port (Palawan) & Lucena, Quezon
 - Alumahan - Malabon Fish Port, (Lucena, Quezon)
- In view of the escalating COVID-19 cases in Metro Manila, physical price monitoring activity in the ten (10) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong).
- Low demand for buyers continues to be apparent in the monitored retail markets, especially as Metro Manila was still under Modified Enhance Community Quarantine (MECQ). As a result, vendors are selling lower volumes or limited variety of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, others vendors are opening only on weekends where there is higher influx of people.
- Nonetheless, market administrators continue to strictly implement precautionary safety measures such as wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection in the monitored retail markets.
