Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal volumes of fresh marine commodities, especially local galunggong was observed at the monitored retail markets this week. This may be attributed to the bad weather condition brought by the Southwest Monsoon or "habagat" and the Intertropical Convergence Zone (ITCZ)/ Easterlies affecting major portion of Luzon and Southern Mindanao, wherein fishing activities were hampered. Supplies for Imported-frozen Galunggong was available at the monitored retail markets this week due to the limited supplies of local galunggong. Vendors sell imported-frozen galunggong as a substitute commodity for local galunggong. For alumahan, limited volume of supplies were still observed this week. Most of the supplies being sold are large-size mainly sourced from Lucena, Quezon. Prevailing retail prices of aquaculture commodities, particularly Bangus and Tilapia, had remained stable due to the sufficient and steady supplies at the retail markets. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas, Pampanga Local Galunggong - Palawan, Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the eleven (11) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong). As demand for fishery commodities remain low in all monitored retail markets, vendors continue to sell small volumes of fishery commodities to ensure that all supplies are sold out by the end of the day. Market administrators continue to implement various precautionary safety measures against COVID-19 in accordance with the Modified General Community Quarantine (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) to safeguard consumers and vendors against the virus. 																												
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Portunus pelagicus</i> or Alimasag - Large (Php350/kg - Php450/kg) - lowest prevailing price of Php350.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Fish Ports, hence, lower price. Highest prevailing price of Php450.00/kg was noted at Marikina Market where available supplies were sourced in primary markets which resulted to a higher price. <i>Thunus albacares</i> or Tambakol (Php200 - Php320/kg) - lowest prevailing price of Php200.00/kg was recorded in Pasig and Guadalupe Markets where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php320.00/kg was noted at Mandaluyong Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price. <i>Katsuwonus pelamis</i> or Gulyasan (Php160- Php280/kg) - lowest prevailing price of Php160.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Fish Ports, hence, lower price. Highest prevailing price of Php280.00/kg was noted at Pasig Market where available supplies were sourced in primary markets which resulted to a higher price. <i>Scamberomorus commerson</i> or Tangigue (Php380- Php600/kg) - lowest prevailing price of Php380.00/kg was recorded at Pasig and Malabon Markets where the available supplies were in small size which resulted to a lower price. Highest prevailing price at Php600.00/kg was noted at Mandaluyong and Marikina Markets where supplies were in large size which resulted to a higher price. <i>Lutjanus sp.</i> or Maya (Php400- Php500/kg) - lowest prevailing price of Php400.00/kg was recorded at Mandaluyong and Caloocan Markets where the available supplies were in small size which resulted to a lower price. Highest prevailing price at Php500.00/kg was noted at Guadalupe and Marikina Markets where supplies were in large size which resulted to a higher price. <i>Leiognathus sp.</i> or Sapsap (Php300- Php500/kg) - lowest prevailing price of Php300.00/kg was recorded at Guadalupe Market where the available supplies were in small size which resulted to a lower price. Highest prevailing price at Php500.00/kg was noted at Marikina Market where supplies were in large size which resulted to a higher price. <i>Acanthurus sp.</i> or Labahita (Php200- Php360/kg) - lowest prevailing price of Php200.00/kg was recorded in Caloocan Market where the available supplies were directly sourced from Fish Ports, hence, lower price. Highest prevailing price of Php360.00/kg was noted at Mandaluyong Market where available supplies were sourced in primary markets which resulted to a higher price. <i>Mene maculata</i> or Chabeta (Php200- Php320/kg) - lowest prevailing price of Php200.00/kg was recorded in Guadalupe Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php320.00/kg was noted at Mandaluyong Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.
