Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal volumes of fresh marine commodities, especially local-fresh galunggong, were still observed at the monitored retail markets this week. This may be attributed to the bad weather condition brought by Tropical Depression "Lannie" and Severe Tropical Storm "Maring" that affects Metro Manila, Central & Northern Luzon, CALABARZON, and MIMAROPA plus the lean fishing season for marine commodities. Other local variant like galunggong "Balsa" (<i>Decapterus macarellus</i>) was available but in limited quantity only. Supplies of Imported-frozen Galunggong was available at the monitored retail markets this week as supplies of local-fresh galunggong continue to be limited. Vendors sell imported-frozen galunggong as a substitute commodity for local galunggong. Also, vendors prefer selling imported-frozen galunggong due to its lower price making it easier to sell. For Alumahan, supplies continue to be unpredictable at the monitored retail markets. Most of the supplies continue to be large-sized mainly sourced from Lucena, Quezon. Prices vary depending on the size, volume and quality of the commodity. The prevailing prices of Bangus and Tilapia have remained the same compared last week. This may be attributed to the sufficient and stable availability among the monitored retail markets this week. Top fishery commodities in the sixteen (16) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas Local Galunggong - Palawan, Lucena, Quezon Alumahan - Malabon Fish Port (Lucena, Quezon) As demand for fishery commodities remain low in all monitored retail markets, vendors continue to sell small volumes of fishery commodities to ensure that all supplies are sold out by the end of the day. In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the eleven (11) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong). In the monitored markets, precautionary safety measures are continuously implemented to ensure the consumers and vendors safety against COVID-19 in accordance with the General Community Quarantine. Among these measures are mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Penaeus monodon</i> or Sugpo - Large (Php600/kg - Php700/kg) - lowest prevailing price of Php600.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php700.00/kg was noted at Guadalupe Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price. <i>Scylla serrata</i> or Alimango - Small-Large (Php550- Php800/kg) - lowest prevailing price of Php550.00/kg was recorded in Marikina Market where the available supplies were sourced directly from Malabon Fish Ports, hence, lower price. Highest prevailing price of Php800.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price. <i>Leiognathus</i> sp. or Sapsap (Php320- Php450/kg) - lowest prevailing price of Php320.00/kg was recorded at Marikina Market where the available supplies were in small size which resulted to a lower price. Highest prevailing price at Php450.00/kg was noted at Guadalupe Market where supplies were in large size which resulted to a higher price. <i>Lethrinus</i> sp. or Bitilya (Php180- Php350/kg) - lowest prevailing price of Php180.00/kg was recorded in Caloocan Market where the available supplies were sourced directly from Malabon Fish Ports, hence, lower price. Highest prevailing price of Php350.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price. <i>Trichurus lepturus</i> or Espada (Php280- Php400/kg) - lowest prevailing price of Php280.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php400.00/kg was noted at Guadalupe Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price. <i>Salmo salar</i> or Salmon - Head (Php150- Php300/kg) - Both the lowest and the highest price were recorded at Marikina Market. The difference in the price may be attributed to the quality of the commodity.
