Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Generally, limited volumes of fresh marine commodities were noted this week which might be due to the bad weather condition brought by Typhoon "Maring" and Tropical Depression " Nando". Consequently, minimal displays of medium-sized local-fresh galunggong laki (<i>Decapterus macrosoma</i>) was observed this week with a prevailing retail price of Php240.00/kg. Relatively, imported-frozen galunggong laki remained available this week recorded at Quinta market with a prevailing retail price of Php170.00/kg, source from Navotas Fish Port. For alumahan, majority of the available display was noted to be in large sizes this week (6-8pcs/kg). Meanwhile, the prevailing retail price for medium-sized of the commodity was recorded at Php260.00/kg sourced mainly from Malabon Fish Port.
