Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> At retail level, sufficient supply of fresh marine commodities were observed this week. However, limited display of fishery commodities were still noted especially for local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) which might be due to the lean fishing season. Additionally, vendors opted to sell minimal volume and variety of fishery commodities as demand remain lower among the monitored retail markets. Relatively, more availability of imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>) were noted this week as supply of the local variant continuous to be limited in most of the monitored markets. There remains to have limited availability of medium-sized alumahan noted this week, as majority of the available display was noted to be in large sizes (6-8pcs/kg). Meanwhile, the prevailing retail price for medium-sized of the commodity was recorded at Php260.00 & 300.00/kg sourced mainly from Malabon Fish Port. Still, ample availability of aquaculture commodities especially bangus and tilapia were observed this week among the monitored retail markets. For medium sized bangus the prevailing retail price was recorded at Php130.00 & 160.00/kg this week, difference in the prevailing prices could be due to the variation in sizes of the available supply, wherein price of Php130.00/kg was noted to be in smaller sizes 4-5pcs/kg, as compared to Php160.00/kg 3pcs/kg. Meanwhile, the prevailing retail price of medium sized tilapia were sustained at Php120.00/kg majority were still sourced from Batangas. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port As demand for fishery commodities remain low in all monitored retail markets, vendors continue to sell small volumes of fishery commodities to ensure that all supplies are sold out by the end of the day. In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the eleven (11) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong). Market administrators continue to implement and observe precautionary safety measures against COVID-19 in accordance with the Modified Enhanced Community Quarantine (MECQ) protocols to ensure that vendors and consumers protected against the virus. Among these measures are wearing of facemasks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others. <p>General Observations:</p>
