Remarks/Market Observations:	The following observations were gathered from market personnel and vendors this week:																						
	<p>1. Ample volumes of fresh marine commodities were observed among the monitored retail markets this week. However, most of the vendors were noted selling only limited volumes and variety of fishery commodities and only opening their stalls during weekends (more influx of buyers) to ensure stocks will be sold out at the end of the day as low demand continues to prevail in the monitored markets.</p> <p>2. Minimal supplies of local-fresh galunggong were noted due to the Closed Fishing Season (CFS) in Northern Palawan plus the cold weather condition, wherein fishes tend to go at the bottom of the ocean making it harder to catch. As a result, more supplies of imported-frozen galunggong were observed at the market as a substitute commodity for local-fresh variant. Some of the vendors prefer selling imported than local galunggong due to its cheaper price, making it easier to sell.</p> <p>3. Sufficient volumes of alumahan were recorded at the monitored retail this week. Most of the supply are still large-size sourced from Lucena, Quezon.</p> <p>4. For medium-sized bangus at the monitored retail markets, the prevailing price this week is at Php180.00/kg as compared last week Php160.00/kg. The difference in prices may have been attributed to the quality (in terms of size) of the commodity. Meanwhile, the prevailing retail price of medium-sized tilapia is at Php120.00/kg this week.</p> <p>5. Top fishery commodities in the sixteen (16) monitored retail markets are sourced mainly from the following areas:</p> <p>a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas c. Local Galunggong - Lucena, Quezon d. Alumahan - Malabon Fish Port (Lucena, Quezon)</p> <p>6. In view of the escalating COVID-19 cases in Metro Manila, physical price monitoring activity in the eleven (11) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong).</p> <p>7. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety against COVID-19 in accordance with the General Community Quarantine – Alert Level II. Among these measures are mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others.</p> <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Penaeus monodon</i> or Sugpo - Large (Php600/kg - Ph850/kg) - lowest prevailing price of Php600.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php850.00/kg was noted at Guadalupe Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.</p> <p>2. <i>Caulerpa lentillifera</i> or Lato (Php120- Php240/kg) - lowest prevailing price of Php120.00/kg was recorded in Caloocan Market where the available supplies were sourced directly from Navotas Fish Port, hence, lower price. Highest prevailing price of Php240.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</p> <p>3. <i>Thunnus albacares</i> or Tambakol - Head (Php280- Php440/kg) - lowest prevailing price of Php280.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php440.00/kg was noted at Pasig Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.</p> <p>4. <i>Caranx sp.</i> or Talakitok (Php350- Php450/kg) - lowest prevailing price of Php350.00/kg was recorded in Malabon and Marikina Markets where the available supplies were sourced directly from Malabon Fish Ports, hence, lower price. Highest prevailing price of Php450.00/kg was noted at Mandaluyong and Guadalupe Markets where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</p> <p>5. <i>Leiognathus sp.</i> or Sapsap (Php220- Php500/kg) - lowest prevailing price of Php220.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php500.00/kg was noted at Mandaluyong Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.</p> <p>6. <i>Lethrinus sp.</i> or Bitilya (Php260- Php400/kg) - both lowest and highest prevailing price were noted at Guadalupe Market, the lowest prevailing of Php260.00/kg are reportedly lower quality as it is from the previous market days, as compared to the Php400.00/kg which are noted to be of better quality in terms of freshness.</p> <p>7. <i>Selar crumenophthalmus</i> or Matambaka (Php120- Php350/kg) - lowest prevailing price of Php120.00/kg was recorded in Caloocan Market where the available supplies were sourced directly from Navotas Fish Port, hence, lower price. Highest prevailing price of Php350.00/kg was noted at Mandaluyong Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</p> <p>8. <i>Trachinotus sp.</i> or Pampano - Black (Php320- Php480/kg) - lowest prevailing price of Php320.00/kg was recorded in Malabon Market where the available supplies were sourced directly from Malabon Fish Ports, hence, lower price. Highest prevailing price of Php480.00/kg was noted at Mandaluyong Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</p>
