REMARKS AND OBSERVATIONS

CAR

WEEK 1 SEPTEMBER 6-10, 2021

Less demand of fishery products in the wet markets due to quarantine protocols imposed by the LGUs where in buyers find it difficult to go outside their homes.

Some fish vendors sold their products at their respective homes and community.

Since CAR is a landlocked Region, the provinces rely only on shipment coming from the nearby coastal regions. Therefore, fish commodities present and available in the three (3) major markets depends on delivery.

WEEK 2 SEPTEMBER 13-17, 2021

Still, less demand of fishery products and low supply was observed in the wet markets due to quarantine protocols imposed by the LGUs where in buyers find it difficult to go outside their homes.

WEEK 3 SEPTEMBER 20-24, 2021 and WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021

Low supply and demand of fishery commodities continued to be apparent in the monitored retail markets in the region.

R1

WEEK 1 SEPTEMBER 6-1, 2021 - WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021

Continuous implementation of health protocols (ex. no facemask and faceshield, no entry) in major wet markets in Region 1.

Almost all of the fishery commodities came from Dagupan City, Bolinao, Pangasinan and Sto. Tomas, La Union.

Presence of imported-frozen galunggong was observed in San Fernando City Public Market and Urdaneta City Public Market price at Php150.00-240.00/kg while in other wet markets, local galunggong was available.

R3

WEEK 2 SEPTEMBER 13-17, 2021

Prices of fishery commodities varies from the different sources.

WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021

Prices of fishery commodities were high due to low volume of supply and bad weather condition.

R4A																					
WEEK 1 SEPTEMBER 6-10, 2021																					
Prices of fishery commodities especially marine fishes were high due to low volume of supply caused by the bad weather condition (Typhoon Jolina).																					
WEEK 2 SEPTEMBER 13-17, 2021																					
Prices of fishery commodities especially marine commodities were high due to low volume of supply and bad weather condition.																					
WEEK 3 SEPTEMBER 20-24, 2021 and WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021																					
Prices of fishery commodities especially marine fishes were high due to low volume of supply and bad weather condition.																					
R4B																					
WEEK 1 SEPTEMBER 6-10, 2021 - WEEK 3 SEPTEMBER 20-24, 2021																					
Prices of fishery commodities were stable but high in some provinces due to transportation expenses.																					
R5																					
WEEK 2 SEPTEMBER 13-17, 2021																					
Due to bad weather condition some of the fishery commodities were not available.																					
R6																					
WEEK 1 SEPTEMBER 6-10, 2021																					
No presence of dynamited fish, rare, threatened and endangered marine species during the conduct of monitoring and inspection.																					
Fish that are being caught by the commercial fishing boats (ring net) were from the municipality of San Jose, Antique.																					
Eventhough there's Typhoon Jolina, the price of fishery commodities remained stable.																					
WEEK 2 SEPTEMBER 13-17, 2021																					
Prices of fishery commodities in Kalibo Public Market was stable.																					
Abundant supply of fishery commodities were observed in the region.																					
R7																					
WEEK 1 SEPTEMBER 6-10, 2021 and WEEK 2 SEPTEMBER 13-17, 2021																					
Prices of fishery commodities were affordable and sufficient in the monitored retail markets.																					
WEEK 3 SEPTEMBER 20-24, 2021																					
Due to bad weather condition, limited supply of fishery commodities were observed in the monitored retail markets.																					
WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021																					
Prices of fishery commodities are depends on the quality of fish in terms of freshness.																					
R8																					
WEEK 1 SEPTEMBER 6-10, 2021																					
The variation in the prices of different fishery commodities available in the moitored retail markets depends on the species' size, source area, and volume availability.																					
Prices of fishery commodities in all monitored markets have been affected by bad weather conditions, however, supplies remained adequate.																					
Abundant supply of Oxeye scad was noted in Tacloban market.																					
WEEK 2 SEPTEMBER 13-17, 2021																					
Supply of fishery commodities in all monitored markets remained sufficient.																					
The variation in prices of different fishery commodities available in the market depends on the species' size, source area, and volume availability.																					
Limited number of species were available during monitoring in Ormoc PM, however, supplies remained adequate.																					
WEEK 3 SEPTEMBER 20-24, 2021																					
Sufficient supply of fishery commodities were observed in the monitored markets.																					
WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021																					
The variation in the prices of different fishery commodities available in the market depends on the species' size, source area, and volume availability.																					
<i>Portunus pelagicus</i> and <i>Charybdis feriata</i> and other small-sized species were usually sold assortedly in a kilogram in Tacloban PM.																					
The prices of some species in Tacloban PM depend on the size sold assortedly per kilo.																					
Less variety of species were available during monitoring in Maasin PM.																					
No reported scarcity of supply in all markets monitored																					
R9																					
WEEK 1 SEPTEMBER 6-10, 2021																					
Due to bad weather condition the supplies of fishery comodities were limited, thus price increased.																					
WEEK 2 SEPTEMBER 13-17, 2021																					
Prices of fishery commodities in the wet markets were high due to bad weather condition.																					
WEEK 3 SEPTEMBER 20-24, 2021																					
Prices of fishery commodities displayed in the monitored retail markets depends on species sizes and quality.																					
Red tail roundscad was abundant in the wet market of Zamboanga del norte.																					
WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021																					
Limited supply of fishery commodities was observed due to the presence of Low Pressure Area (LPA).																					
Prices of fishery commodities were moderate to high.																					
Few fish stall open in the wet market in some Province of Zamboanga.

R10																					
<p>WEEK 1 SEPTEMBER 6-10, 2021 The prices of the primary commodities particularly tilapia, bangus and local galunggong were relatively high. The price varies depends on the size and the source areas. Less consumers/buyers were observed in the market due to COVID-19 Pandemic threat. Province of Camiguin: Few vendors are selling.</p> <p>WEEK 2 SEPTEMBER 13-17, 2021 The prices of primary commodities particularly tilapia, bangus and local galunggong were relatively high this week.</p> <p>WEEK 3 SEPTEMBER 20-24, 2021 The prices of the primary commodities particularly tilapia, bangus and local galunggong were relatively high. Prices of fishery commodities depends on the size and the source areas. In the province of Lanao de Norte and Misamis Occidental most species decrease in price from Php10.00 as compared last week. Less consumers/buyers observed in the monitored retail markets due to COVID-19 Pandemic threat.</p> <p>WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021 The prices of the primary commodities particularly tilapia, bangus and local galunggong were relatively high. The prices of fishery commodities varies depends on the size and the source areas. The prices of the fishes in the markets are increasing. Less consumers/buyers observed in the market due to COVID-19 Pandemic threat.</p>																					
R11																					
<p>WEEK 1 SEPTEMBER 6-10, 2021 Abundant supply of Bangus, Tilapia, Guso and Galunggong were observed in the monitored markets in the region. Other fishery commodities increase in price this week due to constant bad weather conditions and low volume of supply.</p> <p>WEEK 2 SEPTEMBER 13-17, 2021 It was observed that there is an abundant supply of Bangus, Tilapia, Moon Fish, Big -eye Scad, Galunggong, Tuna and Tuna-like species. Price increased in other fishery commodities this week due to constant bad weather conditions and low of supply.</p> <p>WEEK 3 SEPTEMBER 20-24, 2021 It was observed that there was an increase in prices of fishery commodities specifically Tuna and Hipon due to lack of supply. However, price drop for other commodities due to the open season.</p> <p>WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021 It was observed that there is a minimal supply of fishery commodities due to bad weather conditions.</p>																					
R13																					
<p>WEEK 1 SEPTEMBER 6-10, 2021 Prices of fishery commodities vary from its quality and sizes . Prices of some fishery commodities increased its price due to the bad weather condition and some provinces noted to have inadequate supply.</p> <p>WEEK 3 SEPTEMBER 20-24, 2021 and WEEK 4 SEPTEMBER 27-OCTOBER 1, 2021 In some provinces low volume of supply for fishery commodities were observed especially in the islands of Dinagat and Sirgao.</p>																					
NCR																					
<p>The following observations were gathered from market personnel and vendors for the month of September:</p> <ol style="list-style-type: none"> Generally, minimal volumes of fresh marine commodities were noted this month due to the bad weather condition brought about by the following: Typhoon Jolina, trough of Typhoon Mindulle, Southwest Monsoon, and Intertropical Convergence Zone. Relative on this, higher prevailing prices of Php200.00 & 240.00/kg was recorded for medium sized local-fresh galunggong lalaki this Month. Meanwhile, limited availability of imported-frozen galunggong lalaki was still observed among the monitored retail markets this month, as supply of its local-fresh variant remained sufficient to cater the demand of the buying public. Still, majority of the available supply for alumahan was observed to be in large sizes this month. On the other hand, prevailing price for medium size of the commodity remain at Php300.00/kg among the monitored retail markets. For medium sized bangus lower prevailing prices of Php130.00 & 160.00/kg were recorded this month, which might be due to the ample availability of the commodity among the monitored retail markets. Consequently, sustained prevailing of Php120.00/kg was still recorded for medium-sized tilapia this month due to stable supply and demand in the monitored retail markets. Top fishery commodities in the sixteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas Local Galunggong - Navotas Fish Port (Palawan) & Lucena, Quezon Imported Galunggong - Navotas Alumahan - Malabon Fish Port Fluctuations in the prices of the top fifteen (15) and other commodities are influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena. <i>*Mene maculata</i> or Chabeta (Php200 - Php320/kg) - lowest prevailing price of Php200.00/kg was recorded at Guadalupe market on Week 2 and Ugong Valenzuela market on Week 3 where supply are noted to be in smaller sizes as compared to the highest recorded prevailing price of Php320.00/kg observed in Mandaluyong (week 2) and Guadalupe (week 1), which supplies are noted to be larger in sizes. In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the ten (10) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong). Market administrators continue to implement and observe precautionary safety measures against COVID-19 in accordance with the Modified Enhanced Community Quarantine (MECQ) protocols to ensure that vendors and consumers protected against the virus. Among these measures are wearing of facemasks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others.

General Observation

Fluctuation in the prices of the top fifteen (15) and other commodities are influenced by a number of factors such as the commodity's size, quality, volumes of available supply, source area, as well as the weather condition and other natural phenomena.

- Penaeus vannamei* or Hipon (Medium) (Php300.00 & 450.00 /kg) - lowest prevailing price of Php 300.00/kg was recorded at Region 6, Region 7 and Region 13 wherein priced of the said commodity was varies from sourced, sizes and quality. Highest prevailing price of Php 450.00/kg was recorded at Region 1, Region 2 and Region 4B.
- Penaeus monodon* or Suggo (Small) (Php350.00 - 600.00 /kg) - lowest prevailing price of Php 350.00/kg was recorded at Region 5, Region 9 and Region 13. Highest prevailing price of Php 600.00/kg was recorded at Region 1, Region 7 and Region 11.
- Laligo* sp. or Pusit (Php100.00 - 350.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 11 wherein the said commodity was smaller in size, hence the lower the price. Meanwhile, highest prevailing price of Php350.00/kg was recorded at Region 8.
- Acanthurus olivaceus* or Uring (Php140.00 & 300.00/kg) - lowest prevailing price of Php 140.00/kg was recorded at Region 8 wherein the said commodity was smaller in sizes and sourced within the locality compared to Region 1.
- Alepis djehaba* or Salay batang (Php100.00 & 300.00 /kg)-lowest prevailing price of Php 100.00/kg was recorded at Region 4B wherein the said commodity was sourced within the locality, hence the lower the price. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at Region 4A.
- Alepes vari* or Salay (Php80.00 & 200.00 /kg) - lowest prevailing price of Php 80.00/kg was recorded at Region 4B wherein the said commodity was sourced within the locality, hence the lower the price compared to Region 4A.
- Caesio* sp. or Dalagang Bukid (Php100.00 - 300.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 4B wherein the said commodity was smaller in sizes compared to Region 3.
- Caesio caeruleaurea* or Dalagang Bukid Bilog (Php100.00 - 300.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 4B wherein the said commodity was sourced within the locality, hence the lower the price compared to NCR .
- Carangoides ferdau* or Talakitok (Php200.00 - 350.00 /kg) - lowest prevailing price of Php 200.00/kg was recorded at Region 3. Meanwhile, highest prevailing price of Php 350.00/kg was recorded at Region 5.
- Carangoides fulvoguttatus* or Talakitok (Php200.00 - 350.00 /kg) - lowest prevailing price of Php 200.00/kg was recorded at Region 4B wherein the said commodity was sourced within the locality, hence, lower the price compared to Region 8.
- Caranx ignobilis* or Talakitok (Php280.00 - 450.00 /kg) - lowest prevailing price of Php 280.00/kg was recorded at Region 2. Meanwhile, highest prevailing price of Php 450.00/kg was recorded at Region 4A.
- Caranx sexfasciatus* or Talakitok (Php100.00 & 300.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 1. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at Region 4B.
- Clarias* sp. or Hito (Php50.00 & 150.00 /kg) - lowest prevailing price of Php 50.00/kg was recorded at Region 9. Meanwhile, highest prevailing price of Php 150.00/kg was recorded at CAR.
- Decapterus macrosoma* or Galunggong Imported (Medium) (Php120.00 - 240.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 5. Meanwhile, highest prevailing price of Php 240.00/kg was recorded at Region 1.
- Elaqatis bipinnulata* or Salmon (Php120.00 - 260.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 4B. Meanwhile, highest prevailing price of Php 260.00/kg was recorded at Region 13.
- Euthynnus affinis* or Tambakol (Php120.00 - 260.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 9 wherein the said commodity was sourced within the locality, hence the lower the price compared to Region 8.
- Gerres* sp. or Latab (Php80.00 & 260.00 /kg) - lowest prevailing price of Php 80.00/kg was recorded at Region 9 wherein the said commodity was sourced within the locality, hence the lower the price compared to Region 8.
- Gerres oyena* or Latab (Php 200&300/kg)-lowest prevailing price of Php 200.00/kg was recorded at Region 8. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at NCR.
- Hypoatherina temminckii* or Bolinao (Php 80-200/kg)-lowest prevailing price of Php 80.00/kg was recorded at Region 4B. Meanwhile, highest prevailing price of Php 200.00/kg was recorded at Region 12.
- Leognathus splendens* or Sapsap (Php60.00 - 380.00 /kg) - lowest prevailing price of Php 60.00/kg was recorded at Region 4B wherein the said commodity was source within the locality. Meanwhile, highest prevailing price of Php 380.00/kg was recorded at Region 12.
- Lethrinus ornatius* or Kanuping (Php200.00 - 300.00 /kg) - lowest prevailing price of Php 200.00/kg was recorded at Region 5 wherein the said commodity was source within the locality. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at Region 9.
- Macrobrychium rosenbergii* or Ulang (Php300.00 & 550.00 /kg) - lowest prevailing price of Php 300.00/kg was recorded at Region 9. Meanwhile, highest prevailing price of Php 550.00/kg was recorded at Region 3.
- Makaira nigricans* or Malasugi (Php300.00 - 500.00 /kg) - lowest prevailing price of Php 300.00/kg was recorded at Region 1. Meanwhile, highest prevailing price of Php 500.00/kg was recorded at Region 10.
- Nemipterus bathybius* or Bisugo (Php100.00 - 480.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 8. Meanwhile, highest prevailing price of Php 480.00/kg was recorded at NCR.
- Naso Unicornis* or Surahan (Php120.00 - 380.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 8. Meanwhile, highest prevailing price of Php 380.00/kg was recorded at Region 11.
- Nemipterus hexodon* or Suga (Php120.00&350.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 8. Meanwhile, highest prevailing price of Php 350.00/kg was recorded at Region 8 as well.
- Nemipterus nematopus* or Bisugo (Php120.00 & 250.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 8. Meanwhile, highest prevailing price of Php 250.00/kg was recorded at Region 4A.
- Octopus vulgaris* or Kugita (Php80.00 -300.00 /kg) - lowest prevailing price of Php 80.00/kg was recorded at Region 4B wherein the said commodity was sourced within the locality and smaller in size compared to Region 8.
- Parupeneus* sp. or Saramulyete (Php140.00 - 380.00 /kg) - lowest prevailing price of Php 140.00/kg was recorded at Region 9. Meanwhile, highest prevailing price of Php 380.00/kg was recorded at Region 11.
- Plectorhinchus lineatus* or Lipti (Php100.00 - 400.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 4B. Meanwhile, highest prevailing price of Php 400.00/kg was recorded at Region 11.
- Rastrelliger* sp. or Hasa-hasa (Php100.00 - 300.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 9. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at NCR.
- Siganus guttatus* or Malaga (Ph 200.00 - 300.00 /kg) - lowest prevailing price of Php 200.00/kg was recorded at Region 4A and Region 4B. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at Region 2 and Region 12.
- Sillago sihama* or Asohos (Php240.00 - 360.00 /kg) - lowest prevailing price of Php 240.00/kg was recorded at NCR. Meanwhile, highest prevailing price of Php 360.00/kg was recorded at NCR as well.
- Sphyræna* sp. or Rumpi (Php120.00 - 360.00 /kg) - lowest prevailing price of Php 120.00/kg was recorded at Region 9 wherein the said commodity was smaller in size and sourced within the area, hence, the price is lower compared to 8.
- Stolephorus comersonnii* or Dilis (Php100.00 - 240.00 /kg) - lowest prevailing price of Php 100.00/kg was recorded at Region 4A. Meanwhile, highest prevailing price of Php 240.00/kg was recorded at Region 12.
- Stolephorus indicus* or Dilis (Php80.00 - 300.00 /kg) - lowest prevailing price of Php 80.00/kg was recorded at Region 4A. Meanwhile, highest prevailing price of Php 300.00/kg was recorded at Region 4A as well.
- Teuthida* sp. or Pusit (Php150.00 & 450.00 /kg) - lowest prevailing price of Php 150.00/kg was recorded at Region 9 due to ample supply and sourced within the locality, hence, the price is lower compared to NCR.
