Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>In general, average volumes of fresh marine commodities were observed among the monitored retail markets this week. For local-fresh galunggong lakali (<i>Decapterus macrosoma</i>) limited volumes of medium-sized commodity were noted in the monitored retail markets this week. This might be caused by the closed fishing season of the said commodity in Northern Palawan and Visayan Sea.</li> <li>Meanwhile, supplies of imported-frozen galunggong continue to be available in the monitored markets throughout the week. Wherein, vendors sell imported-frozen galunggong as a substitute commodity for local-fresh variant and some vendors prefer selling imported that local due to its cheaper price making it easier to sell.</li> <li>Ample supply of aquaculture commodities were noted this week among the monitored retail markets. More specifically, for medium-sized bangus and tilapia majority of the supply were still noted from Bulacan and Pangasinan.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Malabon Fish Port</li> <li>Alumahan - Malabon Fish Port</li> </ol> </li> <li>Low influx of buyers are still observed among the monitored markets this week. As result, vendors continue to sell limited volume and variety of fishery commodities and or closed their fish stall during non-market days (i.e., Monday) to ensure that stocks will be sold at the end of the day and avoid losses.</li> <li>In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the eleven (11) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong).</li> <li>Precautionary safety measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously observed in the monitored markets.</li> </ol>
