Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal volumes of fresh marine commodities especially for local-fresh galunggong and alumahan were observed among the monitored retail markets this week. This could possibly due to the following reasons: <ul style="list-style-type: none"> trough of typhoon Nyatoh affecting Bicol Region, Eastern Visayas, Romblon Aklan, and Capiz; closed fishing season for round scads (<i>Decapterus</i> spp.) in North-eastern Palawan and Island mackerel (<i>Rastreliger</i> spp.) in Visayan sea where it is mainly sourced; cold weather brought about by the Northeast Monsoon; and lean season for fresh marine commodities. In contrary, supplies of imported-frozen galunggong lalaki continued to have ample availability in the monitored markets throughout the week. This could still be due to the ongoing implementation of close fishing season for round scads in North-eastern Palawan which relatively affected the supply of local fresh variant of galunggong lalaki. Identically, supply of aquaculture commodities were noted to have sufficient availability this week among the monitored retail markets. On the other hand, large sized of bangus remains to be the majority of the supply noted this week sourced from Bulacan and Pangasinan. Meanwhile, there remains to have Php10.00 to Php30.00 price difference for live and dead tilapia noted this week. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong - Malabon Fish Port Alumahan - Malabon Fish Port As prices of fishery commodities remain higher at retail level, lower demand among buyers and consumer are consistently observed among the monitored retail markets. As a result, vendors continue to sell limited volume and variety of fishery commodities and or closed their fish stall during non-market days (i.e., Monday) to ensure that stocks will be sold at the end of the day and avoid losses. In view of the escalating COVID-19 cases and implementation of Enhance Community Quarantine (ECQ) in Metro Manila, physical price monitoring activity in the eleven (11) monitored retail markets are temporarily suspended beginning 20 August 2021 (Friday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong). Market administrators continue to implement and observe precautionary safety measures against COVID-19 in accordance with the General Community Quarantine (GCQ) protocols to ensure that vendors and consumers protected against the virus. Among these measures are wearing of facemasks and face shields, mandatory

<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>1. <i>Penaeus monodon</i> or Sugpo (Large)- (Php650.00 & 950.00/kg)- Similarly, lowest prevailing price of Php650.00/kg was noted from primary market (Marikina) sourced from Bulacan. Meanwhile, highest prevailing price of Php950.00/kg was recorded at Pasig Market where the available supplies are sourced from Lucena, Quezon which is reported to have better in quality in terms of freshness as compared to other sources.</p> <p>2. <i>Loligo</i> spp. or Pusit (Bisaya/Kalawang/Lapis)- (Php130.00 - 400.00/kg) - lowest prevailing price of Php130.00/kg was noted at Pasig Market where the available supplies are pusit kalawang that are reportedly fresh-frozen and usually sell in a cheaper price sourced directly from Malabon and Navotas Fish Port. On the other hand, supplies noted at Mandaluyong market are pusit bisaya which are reportedly better in quality in terms of freshness and was sourced only from nearby primary market (i.e., Farmers) that have recorded the highest prevailing price of Php400.00/kg.</p> <p>3. <i>Metapenaeus ensis</i> or Suwahe- Large(Php400.00 - Php560.00/kg)- similarly, difference in the prevailing price may be attributed to the variation of market with available supply. Lowest prevailing price Php400.00/kg was recorded from Malabon Central market a primary type or bagsakan market that usually offer chieper prices as it was source directly to the nearby wholesale markets. Additionally, supplies noted at the said market are observed to have smaller sizes. Meanwhile, highest prevailing price of Php560.00/kg was recorded at secondary market (Mandaluyong market) that is sourcing only from nearby primary markets (i.e., Farmers) and larger and live supplies of the commodity was noted this week, hence the higher price.</p>
