<p><b>Remarks/Market Observations:</b></p> <p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> <li>Low volume of supplies for fresh marine commodities (especially local-fresh galunggong and alumahan) were still observed among the monitored retail markets this week. This may have been attributed to the following: <ol style="list-style-type: none"> <li>Rainy weather condition brought by Typhoon Odette which lasted 10 days upon its initial enter in PAR;</li> <li>Cold weather condition brought by Northeast monsoon which makes fishes tend to go deeper in the ocean making it harder for them to catch; and</li> <li>Closed fishing season of local-fresh galunggong (<i>Decapterus</i> spp.) and sardines, herrings &amp; mackerel at Northeastern Palawan and Visayan Sea.</li> </ol> </li> <li>Due to the limited supply of local-fresh galunggong at the market, most of the supplies available are imported-frozen galunggong. Vendors prefer selling imported-frozen galunggong as a substitute for the local variant due to its cheaper price making it easier to sell.</li> <li>Nonetheless, supplies of bangus and tilapia remain sufficient and stable among the monitored markets this week. In addition, most of the available supplies for bangus were large sized as suppliers extend their harvest period to achieve the commodity's marketable size for the Christmas Holiday. Meanwhile, for tilapia, all sizes were available at the market.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Bulacan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Malabon Fish Port</li> <li>Imported Galunggong - Navotas Fish Port</li> <li>Alumahan - Malabon Fish Port</li> </ol> </li> <li>Higher demand for fishery commodities were observed during the Christmas Holiday compared from previous weeks. According to vendors, more buyers or consumers were observed at the monitored market. Also, aquaculture commodities were high in demand as supplies for marine commodities remain unpredictable.</li> <li>Market administrators continue to implement and observe precautionary safety measures against COVID-19 in accordance with the Alert Level II protocols to ensure that vendors and consumers protected against the virus. Among these measures are wearing of facemasks, mandatory temperature checks, and regularly scheduled cleaning and disinfection, and others.</li> </ol> <p><b>General Observations:</b></p> <p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <ol style="list-style-type: none"> <li><i>Peneaus monodon</i> or Suggo - Large (Php680/kg - Ph1200/kg) - lowest prevailing price of Php680.00/kg was recorded in Pasig Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php1200.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</li> <li><i>Thunnus albacares</i> or Tambakol (Php120 - Php260/kg) - lowest prevailing price of Php120.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php260.00/kg was noted at Pasig Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.</li> <li><i>Katsuwomis pelamis</i> or Gulyasan (Php160 - Php280/kg) - lowest prevailing price of Php160.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php280.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</li> <li><i>Carangoides armatus</i> or Talakitok (Php350- Php500/kg) - lowest prevailing price of Php350.00/kg was recorded in Malabon &amp; Marikina Markets where the available supplies were sourced directly from Navotas Fish Port, hence, lower price. Highest prevailing price of Php500.00/kg was noted at Madaluyong &amp; Guadalupe Markets where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</li> <li><i>Metapeneaus ensis</i> or Suwahe (Php400- Php800/kg) - lowest prevailing price of Php400.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php800.00/kg was noted at Mandaluyong Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.</li> <li><i>Selaroides leptolepis</i> or Salay Ginto (Php240- Php400/kg) - lowest prevailing price of Php240.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php400.00/kg was noted at Mandaluyong Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.</li> </ol>
