Remarks/Market Observations:			<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Due to the implementation of General Community Quarantine- Alert level 3 in Metro Manila, lower demand among buyers and consumer were consistently observed throughout the week. Relatively, display of fresh marine commodities were observed to be limited among the monitored retail markets, as vendors remain to sell limited volume and variety of fishery commodities to ensure that it will be sold out at the end of the day to avoid losses. For local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), minimal display of medium-sized commodity was still observed in the monitored wet markets this week. Meanwhile, only Trabajo, Quinta and Commonwealth Market have display, in limited volumes, of medium-sized alumahan this week with an actual retail price of Php260.00-300.00/kg sourced from Malabon Fish Port. The limited availability of the said commodities could still be due to the following: <ul style="list-style-type: none"> Ongoing implementation of closed fishing season in Northeastern Palawan (<i>Decapterus</i> spp.) and Visayan Sea (<i>Ratrilleger</i> spp. & <i>Sardinella</i> spp.) where it is chiefly sourced; and Cold weather condition caused by the Northeast monsoon and Easterlies affecting mainly the Northern Luzon, Metro Manila and the rest of the country. In connection to the limited availability of its local variant, supply of imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>) continued to be sufficient in most of the monitored retail markets this week, sourced from Farmers Market, Navotas and Malabon Fish Port. Ample supply of medium-sized bangus were observed in the monitored retail markets and majority of the supply were in large sized source from Bulacan and Pangasinan this week. Similarly, sufficient availability of medium-sized tilapia were continuously observed this week among the monitored retail markets. 																						
			<ol style="list-style-type: none"> Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan Tilapia - Batangas Local Galunggong -Malabon Fish Port Imported-frozen- Navotas Fish Port Alumahan - Malabon Fish Port In view of the escalating COVID-19 cases in Metro Manila, physical price monitoring activity in the ten (10) monitored retail markets are temporarily suspended beginning 21 December 2021 (Tuesday) until further notice. Relative to this, daily price data and market observation are gathered via phone calls covering Top 4 Fishery commodities (i.e., bangus, tilapia, alumahan, local-fresh and imported-frozen galunggong). Market administrators was instructed to strictly implement precautionary safety measures in the monitored markets to avoid the further spread of highly infectious COVID-19 OMICRON variant, as the IATF placed Metro Manila under Alert Level 3 from January 3-15, 2022. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.
