<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Minimal volumes of fresh marine commodities (especially local-fresh galunggong and alumahan) was still observed among the monitored retail markets this week. This could be due to the following reasons: <ol style="list-style-type: none"> Occurrence of fullmoon last 18 Jan. 2022, wherein fishes tend to go deeper into the ocean making it harder for them to catch; Closed fishing season for local-fresh galunggong (<i>Decapterus</i> spp.) in Northeastern Palawan and Sardines, Herrings, and Mackarel in the Visayan Sea; and Cold weather condition brought by Northeast monsoon. Supply of imported-frozen galunggong continue to be abundant as supply of local-fresh galunggong remained unavailable at the monitored retail markets this week. Due to its cheaper price, most vendors prefer selling imported-frozen because its easier to sell. For aquaculture commodities, like bangus and tilapia, the prevailing retail prices remained unchanged compared last week due to stable and sufficient supplies at the monitored markets. Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas Local Galunggong - Malabon Fish Port Imported Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port Low influx of buyers was continuously observed among the monitored retail markets this week. As a result, vendors are selling only limited volumes and varieties of fishery commodities to ensure that all supplies are sold by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more buyers in the monitored markets. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 3 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Scylla serrata</i> or Alimango - Female (Php550/kg - Ph1000/kg) - lowest prevailing price of Php550.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php1200.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price. <i>Thunnus albacares</i> or Tambakol (Php120 - Php240/kg) - lowest prevailing price of Php120.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php240.00/kg was noted at Pasig Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price. <i>Katsuwomis pelamis</i> or Gulyasan (Php160 - Php280/kg) - lowest prevailing price of Php160.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price.
