<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> In general, supplies of fresh marine commodities (especially local-fresh galunggong and alumahan) remain limited this week. This could possibly be due to the: a.) Ongoing implementation of closed fishing season for <i>Decapterus</i> spp. in Northeastern Palawan and for sardines, mackarel & herrings in Visayan Sea, where it is mainly sourced; and b.) Limited fishing operations brought about by the cold weather condition due to the shearline of Low-Pressure Area (LPA) affecting Palawan, Cagayan Valley, Cordillera Administrative Region, Aurora & Quezon Province and Easterlies affecting Metro Manila and the rest of the country. Imported-frozen galunggong continues to be available among the monitored retail markets due to the limited supply of its local variant. Most vendors prefer selling imported-frozen due to its cheaper price making it easier to sell. No changes were observed in the prevailing retail prices of bangus and tilapia due to stable demand and sufficient supplies at the monitored retail markets. Top fishery commodities in the seventeen (17) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Bulacan, Pangasinan Tilapia - Batangas Local Galunggong - Malabon Fish Port, Lucena Imported Galunggong - Navotas Fish Port Alumahan - Malabon Fish Port Low influx of buyers were continuously observed among the monitored retail markets this week. As a result, vendors do the following: <ol style="list-style-type: none"> Sell only limited volumes and varieties of fishery commodities to ensure that all supplies are sold by the end of the day; and Open only on an alternate day schedule or during market days (Friday-Sunday) where there are more buyers observed in the monitored markets. Nevertheless, market administrators continue to strictly implement precautionary measures in the monitored retail markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant, in accordance with the General Community Quarantine - Alert level 3 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Penaeus monodon</i> or Sugpo - Large (Php600/kg - Php800/kg) - both lowest and highest prevailing price were noted at Marikina Market, the lowest prevailing of Php600.00/kg was reportedly an unsold stocks from the previous market days resulting to a lower price, as compared to the Php800.00/kg which was noted to be in better quality in terms of freshness. <i>Caesio cunning</i> or Dalagang Bukid - Lapad (Php280 - Php400/kg) - lowest prevailing price of Php280.00/kg was recorded in Marikina Market where the available supplies were not in good quality resulting to a lower price. Highest prevailing price of Php400.00/kg was noted at Mandaluyong Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price. <i>Gerres oyena</i> or Latab (Php180 - Php320/kg) - lowest prevailing price of Php180.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to a higher price. <i>Mene maculata</i> or Chabeta (Php160- Php300/kg) - lowest prevailing price of Php160.00/kg was recorded in Pasig Market where the available supplies were imported sourced from Navotas Fish Port, hence, lower price. Highest prevailing price of Php300.00/kg was noted at Guadalupe Market where available supplies were sourced from Lucena, Quezon which resulted to a higher price. 																									
<p>(-) - Price and Volume were not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area was not available during price monitoring</p> <p>Markets 1-11 (Balintawak to Navotas Markets 3, 4, & 5) - Monitored by BFAR-FIDSSD (CO) Enumerators Markets 12-18 (Malabon Central to Ugong Valenzuela) - Monitored by BFAR-NCR Enumerators</p>
