The following observations were gathered from market personnel and vendors this week:

- Overall, sufficient quantity of fresh marine commodities were observed at the monitored retail markets this week. More specifically, supply of local-fresh galunggong increased this week following the lifting of Closed Fishing Season at Northeastern Palawan, wherein commercial fishing is now allowed, last Feb 1. Also, there is a lifting of Closed Fishing Season for sardines, mackarel, & herrings at Visayan Sea last Feb 15. As a result, supplies for the said commodities are expected to increased in the coming weeks.
- Supply of imported-frozen galunggong remained available at the monitored retail markets despite the increased in the supply of local-fresh galunggong this week. There are other imported commodities being sold like chub mackarel, chabeta, tulingan and pampano. Some of the vendors prefer selling imported galunggong because of its cheaper price which makes it easier to sell but most of the vendors still buy local galunggong as it is much preferred by the consumers/buyers.
- There is still no changes in the prevailing retail prices of bangus and tilapia. This maybe attributed to the sufficient and stable supplies at the monitored retail markets this week.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas
 - Local Galunggong - Malabon Fish Port, Lucena
 - Imported Galunggong - Navotas Fish Port
 - Alumahan - Malabon Fish Port
- Low influx of buyers was continuously observed among the monitored retail markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold at the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or only during market days (Friday-Sunday) where there are more people in the monitored markets. Also, some of the vendors open only from 6am to 2pm as low number of buyers were observed during afternoon.
- Nevertheless, market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMI/CRON variant in accordance with the General Community Quarantine Alert Level 2 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.

General Observations:

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Scylla serrata* or Alimango - Female (Php550/kg - Ph1100/kg) - lowest prevailing price of Php550.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php1100.00/kg was noted at Farmers Market where available supplies were in good quality resulting to a higher retail price.
- Gerres oyena* or Latab (Php200 - Php360/kg) - lowest prevailing price of Php200.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php360.00/kg was noted at Guadalupe Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.
- Lethrinus* sp. or Kanuping (Php200- Php380/kg) - lowest prevailing price of Php200.00/kg was recorded in Muñoz Market where the available supplies were in small-sized, hence, the lower price. Highest prevailing price of Php380.00/kg was noted at Guadalupe Market where available supplies were large-sized which resulted to a higher price.
- Metapenaeus ensis* or Suwahe (Php400 - Php580/kg) -lowest prevailing price of Php400.00/kg was recorded in Malabon Market where the available supplies were directly sourced from Malabon Wholesale Market which resulted to lower price. Highest prevailing price of Php580.00/kg was noted at Mandaluyong Market where available supplies were in good quality resulting to a higher retail price.
- Tylosorus* sp. or Batalay (Php140 - Php400/kg) - lowest prevailing price of Php140.00/kg was recorded in Navotas Market where the available supplies were directly sourced from Navotas Wholesale Market which resulted to lower price. Highest prevailing price of Php400.00/kg was noted at Mandaluyong Market where available supplies were sourced in primary market (Farmers) which resulted to a higher price.

(-) - Price and Volume were not available during price monitoring
 (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
 NA - Source Area was not available during price monitoring
