		Female	**60 & 70	**78	**60 - 78	**78	**60	-	China and Vietnam

**Remarks/Market Observations:**

**The following observations were gathered from market personnel:**

- At Navotas Fish Port (wholesale), sufficient volumes of fresh marine commodities were still apparently observed this week. Among the fishery commodities recorded were bisugo, lumot, pusit, lapad, balsa, turay and others. For local-fresh galunggong lalaki (*Decapterus macrosoma*), three (3) brokers unloaded the commodity on 18 March 2022 at prevailing wholesale prices of Php165.00/kg, Php170.00/kg, and Php180.00/kg (average of Php172.00/kg). Meanwhile, average prevailing wholesale price of Php153.00/kg (Php130.00, Php150.00, Php180.00) was recorded on Mar. 15 (Tuesday) both are sourced from Northern Palawan. Unloadings of other variants such as burot, galunggong babae, and balsa were also observed this week.
- For alumahan, there remains to have no available supply of the commodity at the fish port.
- Meanwhile, ample unloadings of imported-frozen galunggong lalaki (*Decapterus macrosoma*) was still recorded this week.
- Steady prices of monitored aquaculture commodities were noted this week. More specifically, the prevailing wholesale price of medium-sized tilapia was recorded at Php90.00/kg, sourced from Batangas. Meanwhile, the prevailing wholesale price of medium-sized bangus was at Php155.00/kg, source from Bulacan and Pangasinan. On the other hand, large-sized of the commodity remain the majority of supply unloaded this week at the Fish Port.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
  - Bangus - Pangasinan, Bulacan
  - Tilapia - Batangas
  - Local Galunggong- Northern Palawan
  - Imported galunggong - China and Vietnam
- Precautionary measures (e.g., wearing of face mask and face shields as well as white boots and shirts, mandatory temperature checks, and regularly scheduled cleaning and disinfection) were continuously implemented by the Philippine Fisheries Development Authority (PFDA) at Navotas Fish Port Complex to safeguard vendors and buyers against COVID-19.

*Note: Wholesale price data is as of March 13 & 14, 2022, as price data from PFDA was not provided within the internal cut off of the covering period of this report.*

(-) - Price and Volume not available during price monitoring  
 (\*\*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market.  
 This could be due to limited volumes or no available supplies at the time of monitoring.

NA- Source Area not available during price monitoring
