Remarks/Market Observations	<p>The following observations were gathered from market vendors and administrators for the month of February:</p> <p>1. In general, sufficient volumes of fresh marine commodities were observed at the monitored retail markets this month. In addition, more supplies were observed for local-fresh galunggong and alumahan due to the lifting of closed fishing season for local galunggong (<i>Decapterus</i> spp.) at Northeastern Palawan last Feb. 1 and for sardines, herrings & mackarels (<i>Ratrillegger</i> spp. & <i>Sardinella</i> spp.) at Visayan Sea last Feb. 15. There are also other available local galunggong variants like babae (<i>Decapterus russelli</i>), balsa (<i>Decapterus macarellus</i>) and burot (<i>Decapterus kurroides</i>) noted at the market. This resulted to a decreased in the prevailing retail prices of local galunggong and alumahan this month.</p> <p>2. Despite the sufficient supply of local-fresh galunggong at the market, there are still market vendors who prefer selling imported-galunggong due to its cheaper price making it easier for them to sell. Also, most of the supplies for local galunggong this month are small to medium sizes unlike for imported galunggong which are mostly large-size. Other imported commodities observed at the markets were pampano, salmon mackarel, tulingan and chabeta.</p> <p>3. The prevailing retail prices of bangus and tilapia remain the same from previous month due to the stable demand and sufficient supplies at the monitored markets. Most of the supply for bangus this month are large sizes (1-2pcs/kg).</p> <p>4. Top fishery commodities in the sixteen (18) monitored retail markets are sourced mainly from the following areas:</p> <ul style="list-style-type: none"> a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas c. Local Galunggong - Malabon Fish Port d. Imported Galunggong - Navotas Fish Port e. Alumahan - Malabon Fish Port <p>5. Fluctuations in the prices of the top fifteen (15) and other commodities are influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>*<i>Penaeus monodon</i> or Sugpo-L (Php800-900/kg) - lowest prevailing price of Php800.00/kg was recorded from Marikina Market, whereas supply are source directly from the nearby wholesale markets. On the other hand, highest prevailing price of Php900.00/kg are recorded at Guadalupe Market, wherein supply are source usually from nearby primary markets, hence the variation of prices.</p>								
	<p>*<i>Portunus pelagicus</i> or Alimasag - S-M (Php240-400/kg) - lowest prevailing price of Php240.00/kg was recorded at Pasig market, wherein supply are noted to be smaller sizes resulting to offer the commodity in a lower price, however supply noted at Galas market are observed to have larger sizes and are source only from its nearby primary market (i.e., Farmers), hence the higher price.</p> <p>*<i>Atule mate</i> or Salay Batang (Php200-360/kg) - lowest prevailing price of Php200.00/kg was recorded in Marikina Market where the available supplies were not in good quality. Highest prevailing price of Php360.00/kg was noted at Pasig Market where available supplies were in good quality sourced from Lucena, Quezon, thus higher price.</p> <p>* <i>Decapterus kurroides</i> or Burot (Php120-240/kg)- lowest prevailing price of Php120.00/kg was recorded in Balintawak Market where the available supplies were not in good quality and were stocks from previous market days. Highest prevailing price of Php240.00/kg was noted at Munoz Market where available supplies were in large in size resulting to higher price.</p> <p>*<i>Gerres oyena</i> or Latab (Php200-320/kg) - lowest prevailing price of Php200.00/kg was recorded at Malabon Central market, wherein supply are sourced directly to Malabon Wholesale Market resulting to a lower price, however supply noted at Guadalupe market are sourced from nearby primary market, hence the higher price.</p> <p>* <i>Pterocoesio digramma</i> or Dalagang Bukid Bilog - (Php160-320/kg)- lowest prevailing price of Php160.00/kg was recorded at Navotas Retail market, wherein supply are sourced directly to Navotas Wholesale Market resulting to a lower price, however supply noted at Mandaluyong market are sourced from nearby primary market, hence the higher price.</p> <p>*<i>Tylosorus</i> sp. or Batalay - (Php140-400/kg)- lowest prevailing price of Php140.00/kg was recorded at Navotas Retail market, wherein supply are sourced directly to Navotas Wholesale Market resulting to a lower price, however supply noted at Mandaluyong market are sourced from nearby primary market, hence the higher price.</p> <p>6. According to vendors, low demand among the buyers and consumer were consistently observed throughout the month. Relatively, display of fresh marine commodities were observed to be limited among the monitored retail markets, as vendors only sell limited volume and variety of fishery commodities to ensure that it will be sold out at the end of the day and avoid losses.</p> <p>7. Physical price monitoring activity for the eleven (11) monitored retail markets were resumed last Feb 8 2022 (Tuesday).</p> <p>8. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant, in accordance with the General-Community Quarantine-Alert Level 2 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.</p>
