The following observations were gathered from market personnel and vendors this week:

- Despite the occurrence of the Low Pressure Area (LPA), Intertropical Convergence Zone (ITCZ) and shearline which brought bad weather condition in Visayas, Mindanao, and Bicol region. Sufficient availability of fresh marine commodities were still noted among the monitored retail markets this week. More specifically, ample availability of local-fresh galunggong lalaki (*Decapterus macrosoma*) was observed this week in most of the monitored markets. On the other hand, only one (1) stall in Balintawak market have display of medium-sized commodity on 5 April 2022 as vendors are preferring to sell imported variant of the commodity due to its lower pricing making it easier for them to sell. Meanwhile, presence of small size galunggong lalaki was also observed in the said market source from Navotas Fish Port.
- In relation, limited availability of imported-frozen galunggong lalaki (*Decapterus macrosoma*) was noted this week as the supply of the local variant continues to be sufficient among the monitored markets.
- Still, minimal availability of medium-sized alumahan was observed in most of the monitored markets this week. More specifically in Farmers and Commonwealth Market wherein only large size of the commodity are noted on 5 April 2022 source from Malabon Fish Port and Lucena (Quezon).
- Meanwhile, steady prices were recorded for medium-sized bangus and tilapia this week as the supply remain stable among the monitored retail markets.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan
 - Tilapia - Batangas
 - Local Galunggong - Malabon Fish Port
 - Alumahan - Malabon Fish Port
- "Matumal ang bentahan" continued to be apparent at the monitored retail market this week in spite of the upcoming lenten season. Relative to this, most vendors do the following:
 - Sell lower volumes or limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day; and
 - Open their fish stalls on an alternate-day schedule or only during weekends where there is higher influx of people.
- Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets.

General Observations:

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.
- Lutjanus* sp. or Maya-maya - (Php360.00, 400.00, 500.00/kg) - both prevailing price were noted at Muñoz Market, wherein the lowest prevailing of Php360.00/kg are reportedly smaller in size, as compared to the Php500.00/kg which are noted to have larger sizes, hence the higher price.
 - Geres* sp. or Latab - (Php220.00-330.00/kg) - lowest prevailing price of Php220.00/kg were recorded at primary type or "Bagsakan" Market (Malabon Central Market) which usually offers at a lower price as it is directly sourcing to their nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php330.00/kg were noted from secondary Market (Guadalupe market) which is sourcing supplies only from its nearby primary markets (i.e., Farmers), resulting to offer commodity relatively higher.
 - Parastromateus niger* or Pompano itim - (Php350.00 - 450.00/kg) - lowest prevailing price of Php220.00/kg were recorded in Mega-Q Market where supplies recorded were smaller in sizes, which resulted to a lower price. However, highest prevailing price of Php360.00/kg were noted at Commonwealth Market where supplies are reported to be larger in sized.
 - Parastromateus niger* or Pompano itim - (Php350.00 - 450.00/kg) - lowest prevailing price of Php220.00/kg were recorded in Malabon Central Market wherein supplies recorded were smaller in sizes, which resulted to a lower price. However, highest prevailing price of Php450.00/kg were noted at Mandaluyong Market where supplies are reported to be larger in sized and only sourced from its nearby primary market (i.e., Farmers market).

(-) - Price and Volume not available during price monitoring

(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA - Source Area not available during price monitoring
