Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Adequate display of fresh marine commodities were observed among the monitored retail markets this week. On the other hand, few buyers/ consumers were observed on May 10, 2022 and some of the fish vendors did not open their stalls, which might be due to the recent 2022 National Elections. For medium-sized local-fresh galunggong lalaki (<i>Decapterus macrossoma</i>), minimal but sufficient quantity of the said commodity were observed this week. Nevertheless, abundant availability of other variant such as balsa, burot, and galunggong babae were observed majorly sourced from Malabon and Navotas Fish Port. Meanwhile, only two (2) markets (Muñoz and Galas) have supplies of medium-sized imported-frozen galunggong lalaki this week derived from Navotas Fish Port. Minimal supplies of medium-sized alumahan (<i>Rastrelliger kanagurta</i>) was also observed this week with a prevailing retail price of Php280.00/kg sourced majorly from Malabon Fish Port. On the other hand, availability of other variant i.e. Hasa-hasa (<i>Rastrelliger brachysoma</i>) was also present this week price at Php320.00 & 360.00/kg. Stable prices for aquaculture commodities (bangus and tilapia) were remain observed throughout the week as the supplies continued to be sufficient among the monitored markets. Meanwhile, only large-sized bangus was noted at Tandang Sora and Trabajo markets as vendors prefer selling larger sizes due to the high demand in the said markets. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ul style="list-style-type: none"> a. Bangus - Bulacan b. Tilapia - Batangas c.
