The following observations were gathered from market personnel and vendors this week:

- Generally, lesser volumes of fresh marine commodities were observed among the monitored retail markets this week. This may have resulted from the bad weather condition brought about by the Low Pressure Area affecting MIMAROPA, Bicol, Visayas & Mindanao Regions and Tropical Storm Agaton affecting the rest of the country, thus, hampering the fishing operations. Nonetheless, supplies of fresh marine commodities at the monitored retail markets remain sufficient this week.
- Supplies of local-fresh galunggong (*Decapterus* spp.) remain ample at the monitored markets this week. There are other local galunggong variant like "balsa" (*Decapterus macarellus*), "burot" (*Decapterus kurroides*) and "babae" (*Decapterus russelli*).
- Despite the ample supply of local-fresh galunggong, there are still some retail markets that sell imported-frozen galunggong. Most of the supplies being sold were large-sized. Some of the vendors prefer selling imported galunggong due to its cheaper price making it easier to sell. Nevertheless, most of the consumers still prefer local galunggong than imported galunggong. There are other imported commodities being sold like chub mackarel, chabeta, tulingan and pampano.
- Sufficient supply for Alumahan were still observed at the monitored retail markets this week. Most of the supplies are still medium to large sized.
- The prevailing retail prices of bangus and tilapia remained stable due to the sufficient supplies and stable demand at the monitored retail markets. Supplies for bangus were mostly medium to large size, while for tilapia, all sized were available. There is a Php20-30/kg price difference between live and dead tilapia.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Bulacan, Pangasinan
 - Tilapia - Batangas
 - Local Galunggong - Navotas & Malabon Fish Port, Lucena
 - Imported Galunggong - Navotas Fish Port
 - Alumahan - Malabon Fish Port, Lucena
- Retail prices for fresh marine commodities were noticeably higher this week due to the observance of Lenten Season wherein higher demand for fish were observed as it is considered a substitute commodity for meat.
- According to vendors, there is still not enough buyers despite the observance of lenten season this week. As a result, vendors are still coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies will be sold out by the end of the day.
- Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.

General Observations:

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Portunus pelagicus* or Alimasag - Small-Medium (Php160/kg - Php360/kg) - lowest prevailing price of Php160.00/kg was recorded in Caloocan Market where the available supplies were directly sourced from Navotas/Malabon Wholesale Markets which resulted to lower price. Highest prevailing price of Php360.00/kg was noted at Marikina Market where available supplies were in good quality sourced from Lucena, which resulted to a higher price.
- Thunnus albacares* or Tambakol - Head (Php110 - Php280/kg) - lowest prevailing price of Php110.00/kg was recorded in Caloocan Market where the available supplies were directly sourced from Navotas/ Malabon Wholesale Markets resulting to a lower price. Highest prevailing price of Php280.00/kg was noted at Guadalupe Market where available supplies were sourced from nearby primary market (Farmers), which resulted to a higher price.
- Scomberomorus commerson* or Tanigue (Php380- Php650/kg) - lowest prevailing price of Php380.00/kg was recorded in Malabon Market where the available supplies were not in good quality which resulted to lower price. Highest prevailing price of Php650.00/kg was noted at Marikina Market where available supplies were in good quality sourced from Lucena, which resulted to a higher price.
- Leiognathus* sp. or Sapsap (Php360- Php500/kg) - lowest prevailing price of Php360.00/kg was recorded in Malabon & Guadalupe Markets where the available supplies were small-medium in size which resulted to lower price. Highest prevailing price of Php500.00/kg was noted at Farmers & Marikina Market where available supplies were mostly large-sized sourced from Lucena, which resulted to a higher price.

(-) - Price and Volume were not available during price monitoring
 (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
 NA - Source Area was not available during price monitoring
