Remarks/Market Observations:

The following observations were gathered from market personnel and vendors this week:

1. Minimal availability of fresh marine commodities were recorded among the monitored retail markets this week. This might have been attributed to the occurrence of full moon and observance of Lenten Season. On the other hand, for medium-sized local-fresh galunggong lakaki (*Decapterus macrosoma*) the prevailing retail price of the commodity this week was at Php240.00/kg chiefly sourced from Malabon Fish Port.
2. Supplies of imported-frozen galunggong were noted in Mega-Q, Balintawak, and Muñoz markets this week derived from Navotas Fish Port.
3. Displays of medium-sized alumahan were still apparently observed at the monitored retail markets this week. Meanwhile, presence of other variant (i.e. Hasa-hasa) (*Rastrelliger brachysoma*) was also noted this week particularly in Muñoz and Commonwealth markets.
4. Steady prices of aquaculture commodities (i.e., Bangus and Tilapia) were still noted this week as the supply remain sufficient among the monitored retail markets. On the other hand, there remains to be no available displays of medium-sized bangus in Trabajo and Tandang Sora Markets this week as vendors opted to purchased larger size of the commodity due to the better demand in the said markets.
5. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - a. Bangus - Bulacan
 - b. Tilapia - Batangas
 - c. Local Galunggong -Malabon Fish Port
 - d. Alumahan - Malabon Fish Port
6. Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets.

General Observations:

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

1. *Nemipterus japonicus* or Bisugo - (Php240.00 - 400.00/kg) - both prevailing price were noted at Galas Market , wherein the lowest prevailing of Php240.00/kg are reportedly smaller in size, as compared to the Php400.00/kg which are noted to have larger sizes, hence the higher price.
 2. *Scomber japonicus* or Salmon- (Php120.00-440.00/kg) - lowest prevailing price of Php120.00/kg were recorded at primary type or "Bagsakan" Market (Balintawak Market) which usually offers at a lower price as it is directly sourcing to their nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php440.00/kg were noted from secondary Market (Kamuning market) which is sourcing supplies only from its nearby primary markets (i.e., Farmers), resulting to offer commodity relatively higher.
 3. *Venerupis* sp. or Halaan- (Php100.00 - 240.00/kg) - lowest prevailing price of Php100.00/kg were recorded in Malabon Central Market wherein supplies recorded were smaller in sizes, which resulted to a lower price. However, highest prevailing price of Php360.00/kg were noted at Commonwealth Market where supplies are reported to be larger in sized.
- lowest prevailing price of Php220.00/kg were recorded in Mega-Q Market where supplies recorded were smaller in sizes, which resulted to a lower price. However, highest prevailing price of Php240.00/kg were noted at Guadalupe Market where supplies are reported to be larger in sized and only sourced from its nearby primary market (i.e., Farmers market).

(-) - Price and Volume not available during price monitoring

(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA - Source Area not available during price monitoring
