<b>Remarks/Market Observations:</b>	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Still, adequate display of fresh marine commodities were observed among the monitored retail markets this week. Consequently, sufficient availability of medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was recorded throughout the week.</li> <li>Relatively, no medium-sized imported-frozen galunggong lalaki was observed among the monitored markets this week. On the other hand, larger sizes of the commodity was still observed in some markets particularly Mega-Q and Muñoz.</li> <li>For alumahan, minimal but still sufficient supply of medium-sized commodity was observed among the monitored markets this week. Availability of other variant i.e., Hasa-hasa (<i>Rastrelliger brachysoma</i>) was also observed this week with a recorded prevailing price of Php360.00/kg sourced from Malabon, Lucena, and Farmers.</li> <li>For bangus, stable price was still recorded this week sourced majorly from Bulacan and Pangasinan. On the other hand, there remains to have limited availability of medium-sized commodity observed due to better demand of large size commodity among the buyers and consumers. In fact, only large-sized bangus was noted at Tandang Sora and Trabajo Markets this week.</li> <li>Lastly, steady supply of tilapia was also observed this week among the monitored retail markets. Moreover, there remains to have Php10.00-20.00/kg difference between the supply from Pampanga and Batangas as consumers and buyer's prefer tilapia from Batangas due to better quality (in terms of taste) which command higher prices.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Dagupan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Malabon Fish Port and Navotas Fish Port</li> <li>Alumahan - Malabon Fish Port</li> </ol> </li> <li>The demand for fishery commodities were still low among the monitored markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets.</li> <li>Precautionary measures against COVID-19 (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored retail markets. precaution against COVID-19, safety measures (i.e., mandatory wearing of face masks and face shields, mandatory temperature checks, and regularly scheduled cleaning and disinfection) are continuously implemented among monitored markets.</li> </ol> <p><b>General Observations:</b></p> <p><b>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</b></p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <li><i>Epinephelus</i> sp. or Lapu-lapu - (Php300.00 - 450.00/kg) - Lowest prevailing price of Php300.00/kg are noted at primary market (i.e., Pasig and Caloocan market) wherein, supplies were directly sourced from nearby wholesale market (i.e., Navotas and Malabon Fish Port).
