		Female	80	73 & 80	80	80	73	-	China and Vietnam

Remarks/Market Observations:

The following observations were gathered from market personnel:

- At Navotas Fish Port (wholesale), sufficient supply of fresh marine commodities were noted this week. In fact, abundant supplies of local-fresh galunggong lalaki (*Decapterus macrosoma*) were recorded with a prevailing wholesale price of Php95.00/kg to Php153.00/kg, sourced from Northern & Southern Palawan. The difference in prices could be attributed to the varying sizes of the commodity. More specifically, supplies with the lowest recorded prevailing wholesale price of Php95.00/kg were small to medium in sizes. Meanwhile, supplies with the highest prevailing wholesale price of Php153.00/kg were medium-sized only.
- Availability of imported-frozen galunggong lalaki (*Decapterus macrosoma*) and imported-frozen galunggong babae (*Decapterus russelli*) were remained adequate at the Fish Port sourced from China and Vietnam.
- Meanwhile, no unloading of medium-sized alumahan was recorded this week.
- For bangus, stabilized prices of medium-sized commodity were noted this week. However, there remains to have difference in price from medium-sized commodity from Pangasinan, wherein supply was observed larger 2-3pcs/kg as compared to the supply from Bulacan, medium in size 3pcs/kg.
- Lastly, steady price for medium-sized tilapia was still noted this week with a recorded price of Php90.00/kg sourced from Batangas.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Pangasinan, Bulacan
 - Tilapia - Batangas
 - Local Galunggong- Northern & Southern Palawan
 - Alumahan- NA
 - Imported galunggong - China and Vietnam
- Precautionary measures (e.g., wearing of face mask and face shields as well as white boots and shirts, mandatory temperature checks, and regularly scheduled cleaning and disinfection) were continuously implemented by the Philippine Fisheries Development Authority (PFDA) at Navotas Fish Port Complex to safeguard vendors and buyers against COVID-19.

Note: Wholesale price data is as of May 26 & 30, 2022, as price data from PFDA was not provided within the internal cut off of the covering period of this report.

(-) - Price and Volume not available during price monitoring

(**) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA- Source Area not available during price monitoring
