Remarks/Market Observations:	<p><b>The following observations were gathered from market personnel and vendors this week:</b></p> <ol style="list-style-type: none"> <li>Generally, minimal supply of fresh marine commodities were observed among the monitored retail markets this week. More specifically, limited supply of local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was observed this week. This might be attributed to the hampered fishing operation caused by the occurrence of Tropical Depression "Caloy" and "Domeng" this week. Meanwhile, the presence of Southwest Monsoon was also noted this week affecting Southern Luzon and Western Visayas.</li> <li>On the other hand, limited display of imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>) was noted this week. In fact, only Mega-Q Market have recorded medium-sized of the commodity this week sourced from Navotas Fish Port.</li> <li>Similarly, minimal display of medium sized alumahan (<i>Rasteriliger kanagurta</i>) was noted among the monitored markets this week. Moreover, large-sized of the commodity was consistently available particularly in Tandang Sora, Commonwealth, Mega-Q, and Farmers markets.</li> <li>No major changes in the prevailing retail prices of aquaculture commodities (i.e., bangus and tilapia) were recorded throughout the week. Furthermore, no medium-sized bangus was still recorded in Tandang Sora Market as vendors prefer selling larger sizes due to better demand in the market.</li> <li>Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> <li>Bangus - Dagupan</li> <li>Tilapia - Batangas</li> <li>Local Galunggong - Navotas Fish Port</li> <li>Alumahan - Farmers, Malabon and Navotas Fish Port</li> </ol> </li> <li>Low influx of buyers was continuously observed among the monitored retail markets today. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets.</li> <li>Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.</li> </ol>
