| Remarks/Market Observations: | <p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Overall, limited supplies of fresh marine commodities were observed among the monitored retail markets this week. Relatively, minimal increased in price of medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>) was noted. This might have been due to the hampered fishing operation caused by the bad weather condition brought about by the Low Pressure Area (LPA) in the East of Davao and Southwest monsoon affecting Metro Manila, Central Luzon, CALABARZON, MIMAROPA, Cagayan, Isabela, Bicol Region, Western Visayas, and Zamboanga Peninsula. On the other hand, minimal availability of medium-sized imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>) was still noted at the monitored retail markets this week. In fact, only four (4) markets (i.e., Mega-Q, Balintawak, Muñoz, and Galas) reportedly to have medium-sized of the commodity this week obtained from Navotas Fish Port. Limited display of medium-sized alumahan (<i>Rasterlliger kanagurta</i>) was still noted this week as large-sized of the commodity remain the majority of supply observed particularly in Tandang Sora, Commonwealth, Mega-Q, and Farmers markets. Sufficient supplies of aquaculture commodities (i.e., bangus and tilapia) were still observed this week. However, according to vendors there's an increased in the wholesale prices of the said commodities which might be the due to the increased in the transportation expenses brought by the continues increment of oil price in the country. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Dagupan Tilapia - Batangas Local Galunggong -Navotas Fish Port Alumahan - Farmers, Malabon and Navotas Fish Port Low influx of buyers was continuously observed among the monitored retail markets today. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. | | | | | | | | | | | | | | | | | | | | | | | | | |
| | <p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Decapterus macrosoma</i> or Glunggong lalaki (medium)- (Php180.00 & 280.00/kg)-Lowest prevailing price of Php180.00/kg were recorded in primary market (i.e., Balintawak, Navotas retail, Malabon Central, Pasig, and Ugong Valenzuela) which are directly sourcing from its nearby wholesale market (i.e., Navotas and Malabon Fish Port). Meanwhile, highest recorded prevailing price of Php280.00/kg was noted at secondary markets (i.e., Tandang Sora, Kamuning, Galas, Marikina, and Guadalupe) wherein supplies are sourced only from its nearby primary markets (i.e., Farmers), hence offer in a higher price. <i>Gerrus</i> spp. or Latab - (Php220.00 - 330.00/kg)- Similarly, lowest prevailing price of Php220.00/kg was noted at primary market (i.e., Malabon Central) which supply are sourced from its nearby wholesale market (i.e., Malabon Fish Port). Meanwhile, highest recorded price of Php330./kg was noted secondary market (i.e., Guadalupe) wherein supply are sourced only from its nearby primary market (i.e., Farmers), hence offer in a higher price. <i>Mugil cephalus</i> or Banak- (Php200.00-350.00/kg)- Likewise, lowest prevailing price of Php200.00/kg was recorded in Malabon Central market wherein supplies are directly sourced from its nearby wholesale market (i.e.,Malabon Fish Port) which usually offer at a lower price. Meanwhile, highest prevailing price of Php350.00/kg were noted in Guadalupe market, wherein supplies are sourced only at primary market (i.e., Farmers market). | | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring</p> | | | | | | | | | | | | | | | | | | | | | | | | | | |
