		Male	125	125	125	125	125	-	China and Vietnam
		Female	**78	**85	**78 & 85	**85	**78	-	China and Vietnam

Remarks/Market Observations:

The following observations were gathered from market personnel:

- At Navotas Fish Port (wholesale), minimal unloading of fresh marine commodities were noted this week. This could have been due to the inclement weather condition caused by the occurrence of Low Pressure Area (LPA) noted in the East of Joban, Sorsogon this week. Moreover, Intertropical Convergence Zone (ITCZ) was reportedly affecting Southern Luzon, Visayas, and Mindanao. Among the fishery commodities observed were bisugo, lapad, betilya, balsa, pusit, espada, gulyasan, tambakol, tulingan, and others. More specifically, for medium-sized local-fresh galunggong lalaki (*Decapterus macrosoma*), the recorded actual wholesale prices of the commodity were Php110.00/kg, and Php160.00/kg sourced from Southern and Northern Palawan.
- Meanwhile, sufficient supply of medium-sized imported-frozen galunggong lalaki (*Decapterus macrosoma*) was still observed at the fish port this week. However, minimal unloading of imported-galunggong babae (*Decapterus ruselli*) was noted sourced from China and Vietnam.
- On the other hand, medium-sized alumahan (*Rastrilliger kanagurta*) remained to be unavailable at Navotas Fish Port this week.
- For medium size bangus, higher prevailing wholesale price was recorded this week as majority of the supply observed were larger sizes composed of 2-3pcs/kg sourced from Pangasinan. Other source areas noted were Bulacan and Batangas.
- Similarly, minimal increased in the prevailing wholesale price of medium-sized tilapia was recorded this week. This might be due to the effect of higher transportation expenses brought about by the continues increment of oil price in the country.
- Top fishery commodities in the monitored markets are sourced mainly from the following areas:
 - Bangus - Pangasinan, Bulacan
 - Tilapia - Batangas
 - Local Galunggong- Southern & Northern Palawan
 - Alumahan- Not Available
 - Imported galunggong - China and Vietnam
- Precautionary measures (e.g., wearing of face mask and face shields as well as white boots and shirts, mandatory temperature checks, and regularly scheduled cleaning and disinfection) were continuously implemented by the Philippine Fisheries Development Authority (PFDA) at Navotas Fish Port Complex to safeguard vendors and buyers against COVID-19.

Note: Wholesale price data is as of June 3 & 4, 2022, as price data from PFDA was not provided within the internal cut off of the covering period of this report.

(-) - Price and Volume not available during price monitoring

(**) - Actual Wholesale - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring

NA- Source Area not available during price monitoring
