

ANNEX B

GOVERNANCE-RELATED ACTION PLANS AND STRATEGIES for the improvement of the Blue Swimming Crab Industry of the Philippines

A. Critical Success Factors, Key Performance Indicators, and Implementation Schemes

CRITICAL SU	CCESS FACTORS	I	KEY PERFORMANCE	INDICATORS	IMPLEMENTATION SCHEM				
SPECIFIC OBJECTIVES / KEY ACTIONS	SPECIFIC ACTIONS	EXPECTED OUTCOMES	MAIN IMPLEMENTERS	IMPLEMENTING PARTNERS					
GOAL: Increased complian	ce with BSC regulations for susta	inable manage	ment of BSC fisher	γ					
OBJECTIVE #1. To institutionalize	e a multi-stakeholder council on BS	C by 2020							
Transitioning of the BSC-TWG into the National BSC Council and institutionalization and recognition of	Reconstitution of the BSC-TWG to include all stakeholders	Existing TWG	Reconstituted TWG, to include other members		BFAR-TWG	LGU, Academe, Private Sector, Fishers			
the National BSC Council	Strengthening of the function of the BSC- TWG to cover other funding sources in preparation for the institutionalization of the BSC Council	Present BSC-TWG	Strengthened BSC- TWG	Institutionalized National BSC Council	BFAR-TWG	LGU, Academe, Private Sector, Fishers			
	Organization of the BSC Council			Compliance to Laws / Standards / Criteria, such as:					
	Conduct of regular quarterly meetings of the Council to discuss issues which may include the following:			- DA's New Paradigms - JAO 01, 2014 - MSC Principle 3 - (3.1.2 Consultation, Roles and					
	a. Monitoring of BSC traceability (Local Transport Permit) and documentation, and recommend improvement to policies	Strengthened BSC- TWG	Institutionalized National BSC Governing Council	Responsibilities) - MSC Principle 3 - (3.2.2 Decision-making Processes) - SFW Factor (Mgt of Impacts -	National BSC Council	All Stakeholders			
	b. Review and make appropriate recommendations on prices			Stakeholders Inclusion)					
	c. Research and development activities for stock enhancement and BSC culture								
OBJECTIVE #2. To institutionalize	e the BSC Roadmap in 2020								
Formulation of the BSC Roadmap, including localised roadmaps (e.g. for San Miguel Bay)	Revisit of previous and existing Philippine and overseas management plans as resource materials	(0) base on previous MP	1 Roadmap	Institutionalized BSC Roadmap Compliance to Laws / Standards /	BFAR-TWG	LGU, Academe, Private Sector, Fishers			
	Establishment of comprehensive BSC fishery database	NSAT data; PSA data	Harmonized BSC database	Criteria, such as: - DA New Paradigms - MSC Principle 3 - (3.1.2	BFAR, LGU	Academe, NGO, BFAR, Key Industry Players			

	Drafting of the BSC Roadmap and consultation prior to implementation	Results of studies (UPV, ISCOF and other SUCs)	BSC Roadmap	Consultation, Roles and Responsibilities); - SFW Factor (Mgt of Impacts - Stakeholders Inclusion)	BFAR	LGU, Key Industry stakeholders
OBJECTIVE #3. To adopt and in in 5 years	tegrate the BSC-NMP into the local	executive agend	a, and implement th	ne BSC-NMP in all LGUs (where	e BSC is a majo	r commodity)
Preparation of DILG Memo Circular (i.e. SGLG) to adopt/integrate in the local executive agenda the	Provide template on municipal ordinances for LGUs to follow	Results of studies (UPV, ISCOF and other SUCs)	Number of LGUs with ordinances			
implementation of the BSC-NMP	Conduct of information caravan on LCEs to increase awareness on the need to integrate the BSC NMP.	Existing IEC materials	Number of info- caravan launched	Adoption of the BSC-NMP in the	LGU, BFAR	All Stakeholders
Implementation of at least 5 capacity building programs on effective fisheries management of	Conduct of surveys and development of training modules	(0) base	Number of capacity building training modules developed	local executive agenda for the proper and sustained implementation of the BSC-NMP	LGU, BFAR	All Stakeholders
BSC resource for LGUs where BSC is a major commodity	Conduct of trainings/capacity building	LGU lists	Number of capacity building programs conducted	Compliance to Laws / Standards / Criteria, such as: - DA New Paradigms - RA 8550(Philippine Fisheries	LGU, BFAR	Academe, CSO
For all coastal communities where BSC is a major commodity to have Municipal Fishery Ordinances with BSC-specific regulations based on science, within 5 years	Conduct of assessment (Rapid and Comprehensive Assessment) of municipal / city / provincial ordinances on BSC	UPV Study ISCOF and other SUCs	Report on the Rapid Comprehensive Assessment	Code), as amended by RA 10654 - RA 7160 (Local Govt Code, 1991) - FAO 263 (FMA, 2019) - FAO 196 (FARMC, 2000) - MSC Principle 3 - (3.1.1 Legal	LGU	BFAR, Academe
	Consolidation of available data	LGU data	Database of consolidated data	and/or Customary Framework	LGU	stakeholders
	Collaboration among LGUs, FARMCs, and concerned agencies	Existing tie ups	Number of collaborations established			
Organization of 2 inter-LGU alliances for a (harmonized) MFO implementation in 3 years	Conduct of quarterly and special meetings involving FARMCs.	Existing LGU Alliances	Number of inter-LGU alliances established through MOAs	Organized LGU-alliance for common implementation of the BSC-NMP Compliance to Laws / Standards /	LGU, BFAR	BFAR, CSOs, Academe

OBJECTIVE #4. To increase awa	Institutionalization/Organization of inter- LGU alliances through MOAs	n/a a the key players	Number of MOAs signed and implemented	Criteria, such as: - RA 8550(Philippine Fisheries Code), as amended by RA 10654 - FAO 196 (FARMC, 2000) - RA 7160 (Local Govt Code, 1991) - MSC Principle 3 - (3.2.2 Decision-making Processes) Cessors, exporters, enablers.	resource mana	agers) in 5
	ng grounds in 5 years	y , p,	(,, p	,		3,
Design and conduct of training programs / IEC to build the capacity and understanding of fishery management among BSC fishers and	Profiling/Baselining e.g. level of awareness and no. of fishers/traders, number of BSC-related rules and regulations, etc.	Existing IEC Caravan in Partnership with SUCs and LGUs	Number of IEC activities conducted; % increase in awareness	Increased awareness among stakeholders of all BSC regulations		
other key players	Intensification of IEC drive specifically on JAO to LGUs (LCE, Legislative body, MAO/ PFO, and other LGU personnel)	LGU data	No. of IEC activities conducted; % increase in awareness	Compliance to Laws / Standards / Criteria, such as: - JAO 01, 2015 - MSC Principle 3 - (3.2.3	BFAR, Private Sector	CSOs, Academe, LGU
	Conduct of IEC drive at the municipal and barangay levels using all media platforms e.g. facebook and teach-in demos	LGU data	No. of IEC activities conducted; % increase in awareness	Compliance and Enforcement - SFW Factor 3.1 Mgt of Impacts on Retained Stocks		
	ulatory compliance in the BSC fishe ality standards, traceability, social o				ied and juvenil	e crabs, food
Identification of major municipalities / provinces with BSC fisheries, review their regulations/ ordinances, and	Assessment of municipalities / provinces with BSC as major commodity	Existing data on number of apprehensions	increase in compliance	Increased compliance among stakeholders of all BSC regulations		
strategize enforcement of rules and regulations	Consolidation of available data on municipal ordinances	LGU data		Compliance to Laws / Standards /		Private Sector, all Stakeholders,
	Collaboration among municipal and provincial LGUs and concerned agencies on regulatory matters	LGU data	Number of collaborations established	Criteria, such as: - DA's New 8 Paradigms for Agriculture and Fisheries - RA 8550(Philippine Fisheries	BFAR, LGU	and law enforcement agencies
	Law enforcement activity (e.g. conduct of land-based enforcement such as market denial in Zamboanga and Tawi-Tawi, conduct of Seaborne Patrol in BASULTA area and Isabela	Existing line of of activities (if available)	Number of law enforcement activities conducted	Code), as amended by RA 10654 - Phil Clean Water Act of 2004 (RA 9275); Ecological Solid Waste Mgt Act of 2001 (RA 9003)		

	Regulation of the number of meshdown in the use of gillnets from 100 to 25 (stretch), through issuance of fishing gear license Recognition/ incentivization of best practices on BSC initiatives.		Number of programs recognized with best practices	RA 7586 - National Integrated Protected Areas System - series of 1992 JAO 01, 2014 FAO 212 (HACCP, 2001) FAO 210 (Exportation, 2001) FAO 228 (Rules on exportation	LGU, DA	All Stakeholders
	Increase in compliance to HACCP guidelines for food quality and safety	Number of existing processing plants that are HACCP-compliant	Percent compliance against total number of processors and picking plants	to EU, 2008) - FAO 251 (Traceability System, 2014) - PNS 178:2016 (Pasteurized Crab Meat)	BFAR	LGU, private sector
	Strengthening of the implementation / local adaption of JAO through the issuance of an Executive Order	JAO No. 1 series of 2014	Revised JAO No. 1 series of 2014	- 2000 Bangkok Declaration on Strategy for Aquaculture Development - MSC Principle 3 - (3.2.3 Compliance and	LGU	BFAR, FARMC
	Strengthening of the enforcement of waste management policies, including monitoring of post-harvest waste disposal	LGU data	Number of management policies reviewed / strengthened	Enforcement; - SFW Factor 3.1 Mgt of Impacts on Retained Stocks	LGU	Buyers, BFAR, Operators, DENR
	Allocation of (additional) funds for the enforcement of policies (personnel, operation expenses, logistics, capacity development for law enforcers, etc.)	LGU data	Amount of funds allocated / budgeted		LGU	PCG, PNP, ,Maritime, PLGU, BFAR
	Monitoring of compliance of fishing activities associated with MPAs	LGU data	Number of MPAs monitored		LGU	BFAR
	Crafting of policy for closed season, law enforcement of existing BSC policies and stock enhancement activities	(0) base	Number of areas with closed season policy guidelines in place		BFAR	LGU, Academe, CSO
Increase in the number of crab processing facilities that are socially compliant by at least 20% of all crab processing facilities in 5 years	Survey of the level of social compliance of existing facilities	Data from private sector	Number of socially compliant facilities	Increased number of socially compliant plants for improved quality of life among workers	BFAR, PACPI	LGU, CSO
	Preparation and dissemination of IEC materials on the guidelines for social compliance	Data from private sector	Number of IEC materials disseminated	Compliance to Laws / Standards / Criteria, such as: - Conservation Alliance for Seafood Solutions Framework on Socially and Environmentally Responsible Seafoods	BFAR, PACPI	LGU, CSO

B. Implementation Schedule, Budgetary Requirements and Sources of Funds

CRITICAL S	UCCESS FACTORS							IMP	LEN	VEN.	ΙΑΤΙ	ON	SC	HED	ULE							PROP BUD		SOURCESOF
SPECIFIC ACTIONS /	SDECIEIC ACTIONS		202	20			20	21			20	22			20	023				2024		2020	2021-	FUNDS
KEY ACTIONS	SPECIFIC ACTIONS	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	2020	2024	
GOAL: Increased con	npliance with BSC regulation	s for	sus	taiı	nak	ole	ma	ına	ger	ner	nt o	f th	e B	SC	fish	ery								
OBJECTIVE #1. To institut	ionalize a multi-stakeholder BSC	Co	Jnc	il by	20	20																		
Transitioning of the BSC-TWG into the National BSC Council and the	Reconstitution of the BSC-TWG to include all stakeholders																							
institutionalization and recognition of the National BSC Council	Strengthening of the function of the BSC-TWG to cover other funding sources in preparation for the institutionalization of the BSC Council																					500,000		UNDP
	Organization of the BSC Council																					500,000		UNDP
	Conduct of regular quarterly meetings of the Council to discuss issues which may include the following:																							
	a. Monitoring of BSC traceability (Local Transport Permit) and documentation, and recommend improvement to policies																						4,000,000	BFAR, NGO, UNDP
	b. Review and make appropriate recommendations on prices																							
	c. Research and development activities for stock enhancement and BSC culture																							
OBJECTIVE #2. To institut	ionalize the BSC Roadmap in 20	20																						
Formulation of the BSC Roadmap, including localised roadmaps (e.g. for San Miguel Bay)	Revisit of previous and existing Philippine and overseas management plans as resource materials																							(no budgetary requirement)
good 50//	Establishment of comprehensive BSC fishery database																							(included under Ecological Plans
	Drafting of the BSC Roadmap and consultation prior to implementation																					1,000,000	500,000	BFAR

	modity) in 5 years																		
Preparation of DILG Memo Circular (i.e. SGLG) to adopt/integrate in the local	Provide template on municipal ordinances for LGUs to follow																		(no budgetary requirement)
executive agenda the implementation of the BSC-NMP	Conduct of information caravan on LCEs to increase awareness on the need to integrate the BSC NMP.																500,000	1,500,000	BFAR
Implementation of at least 5 capacity building programs on effective fisheries	Conduct of surveys and development of training modules																500,000	1,000,000	LGU
management of BSC resource for LGUs where BSC is a major commodity	Conduct of trainings/capacity building																1,000,000	3,000,000	ATI, BAR
For all coastal communities where BSC is a major commodity to have Municipal Fishery Ordinances with BSC-specific regulations based	Conduct of assessment (Rapid and Comprehensive Assessment) of municipal / city / provincial ordinances on BSC																250,000	500,000	LGU
on science, within 5 years	Consolidation of available data																		
	Collaboration among LGUs, FARMCs, and concerned agencies																250,000	1,000,000	
Organization of 2 inter-LGU alliances for a (harmonized)	Conduct of quarterly and special meetings involving FARMCs.																	1,000,000	LGU
MFO implementation in 3 years	Institutionalization/Organization of inter-LGU alliances through MOAs																	1,000,000	LGU
	ise awareness on all BSC regular gers) in 5 major BSC fishing grour	•	st 80'	% of	the	key	pla	yers	(fish	ners,	, tra	ders	s, pr	oce	essor	s, ex	porters, end	ablers, reso	urce
Design and conduct of training programs / IEC to build the capacity and understanding of fishery	Profiling/Baselining e.g. level of awareness and no. of fishers/traders, number of BSC-related rules and regulations, etc.																		
management among BSC fishers and other key players	Intensification of IEC drive specifically on JAO to LGUs (LCE, Legislative body, MAO/ PFO, and other LGU personnel)																1,000,000	8,000,000	LGU, Private sector
	Conduct of IEC drive at the municipal and barangay levels using all media platforms e.g. facebook and teach-in demos																		

OBJECTIVE #5. To increase regulatory compliance in the BSC fisheries (e.g. catch documentation, size regulations, catching of berried and juvenile crabs, food safety and quality standards, traceability, social compliance) by 20% annually over 5 years

Identification of major municipalities / provinces with BSC fisheries, review their regulations/ ordinances, and strategize enforcement of rules and regulations

and quality standards, traceabili	ity, s	soc	ial c	om	plic	ınce	e) b	y 20)% c	ınnı	Jall	y ov	er 5	ye	ars					
Assessment of municipalities / provinces with BSC as major commodity Consolidation of available data on																		300,000	500,000	LGU, Private sector, BFAR
municipal ordinances																				
Collaboration among municipal and provincial LGUs and concerned agencies on regulatory matters																			2,000,000	LGU
Law enforcement activity (e.g. conduct of land-based enforcement such as market denial in Zamboanga and Tawi-Tawi, conduct of Seaborne Patrol in BASULTA area and Isabela																			5,000,000	LGU
Regulation of the number of meshdown in the use of gillnets from 100 to 25 (stretch), through issuance of fishing gear license																			5,000,000	LGU
Recognition/incentivization of best practices on BSC initiatives.																		1,000,000	5,000,000	LGU/ DA
Increase in compliance to HACCP guidelines for food quality and safety																				
Strengthening of the implementation / local adaption of JAO through the issuance of an Executive Order																				(no budgetary requirement)
Strengthening of the enforcement of waste management policies, including monitoring of post-harvest waste disposal																		700,000	5,000,000	LGU
Allocation of (additional) funds for the enforcement of policies (personnel, operation expenses, logistics, capacity development for law enforcers, etc.)																		2,000,000	8,000,000	LGU

TOTAL BUDGET NEEDE	ED (PhP)								11,500,000	64,000,000	
by at least 20% of all crab processing facilities in 5 years	Preparation and dissemination of IEC materials on the guidelines for social compliance									4,000,000	Private Sector
Increase in the number of crab processing facilities that are socially compliant	Survey of the level of social compliance of existing facilities									1,000,000	Private Sector
	Crafting of policy for closed season, law enforcement of existing BSC policies and stock enhancement activities								1,000,000	1,000,000	LGU, BFAR
	Monitoring of compliance of fishing activities associated with MPAs								1,000,000	8,000,000	LGU
