Remarks/Market Observations:

The following observations were gathered from market personnel and vendors this week:

- Minimal supplies of fresh marine commodities were noted among the monitored retail markets this week. This could have been caused by the inclement weather condition brought about by the occurrence of Low Pressure Area (LPA) in Northwest of San Jose, Occidental Mindoro and Southwest monsoon affecting the Western sections of Southern Luzon, Visayas and Mindanao. Consequently, higher prevailing retail price was observed for medium-sized local-fresh galunggong lalaki (*Decapterus macrosoma*) this week.
- Due to the minimal availability of medium-sized local-fresh galunggong lalaki, supplies of medium-sized imported-frozen galunggong remained present in some of the selected retail markets this week. More specifically, in Trabajo, Quinta, Mega-Q, Muñoz, and Galas Markets. Moreover, supplies were reportedly derived from Navotas Fish Port.
- For medium-sized alumahan, the commodity continued to be available at the monitored retail markets this week. Further, majority of the supplies observed this week were still large in sizes.
- Lastly, stable prices were recorded for bangus and tilapia this week, as supplies remained adequate to cater the demand of the buying public.
- The demand for fishery commodities remained low in the monitored retail markets this week. Nevertheless, market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.
- Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas:
 - Bangus - Dagupan, Bulacan
 - Tilapia - Batangas
 - Local Galunggong -Malabon and Navotas Fish Port
 - Alumahan - Malabon and Navotas Fish Port

General Observations:

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.

- Gerres* spp. or Malakapas- (Php220.00 - 320.00/kg)-Lowest prevailing price of Php220.00/kg were recorded in primary market (i.e., Malabon Central) which are directly sourcing from its nearby wholesale market (i.e.,Malabon Fish Port). Meanwhile, highest recorded prevailing price of Php320.00/kg was noted at secondary markets (i.e., Guadalupe) wherein supplies are sourced only from its nearby primary markets (i.e., Farmers), hence offer in a higher price.
- Mugil cephalus* or Banak- (Php200.00 & 350.00/kg)- Similarly, lowest prevailing price of Php200.00/kg was recorded in Malabon Central market wherein supplies are directly sourced from its nearby wholesale market (i.e.,Malabon Fish Port) which usually offer at a lower price. Meanwhile, highest prevailing price of Php350.00/kg were noted in Guadalupe market, wherein supplies are sourced only at primary market (i.e., Farmers market).

(-) - Price and Volume not available during price monitoring

(*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.

NA - Source Area not available during price monitoring
