Remarks/Market Observations: The following observations were gathered from market personnel and vendors this week: 1. Overall, minimal volumes of fresh marine commodities were observed among the monitored retail markets this week. This could still be due to the bad weather condition brought about by the Low Pressure Area (LPA) affecting Eastern and Central Visayas, Caraga, Bicol Region, and Negros Occidental. Meanwhile, Localized Thunderstorms are affecting Metro Manila and the rest of the country. The prevailing retail prices of fresh marine commodities remain relatively high due to the minimal supply at different fishports. 2. The supply of medium-sized local-fresh galunggong (<i>Decapterus macrosoma</i>) remained stable at the monitored retail markets this week. The prevailing retail price is at an average of Php220.00/kg this week. Most of the supplies were sourced from Malabon Fish Port and Navotas Fish Port. There are also other local galunggong variants available like "balsa" (<i>Decapterus macarellus</i>) and "burot" (<i>Decapterus kurroides</i>) recorded this week. 3. For medium-sized imported-frozen galunggong lalaki, only Mega-Q and Galas Markets have an available supplies at the market this week. This may be attributed to the sufficient supply of local-fresh galunggong at the monitored market. Some of the vendors prefer selling imported-frozen galunggong due to its cheaper price making it easier to sell to buyers. 4. Minimal volume of supply for alumahan were observed at the market this week. Supplies were mostly sourced from Navotas and Muñoz Markets. The price difference could be attributed to the quality (in terms of freshness) and source area of the unloaded supplies. 5. No changes were observed at the prevailing retail price of bangus due to the sufficient supply and stable demand at the monitored retail markets this week. Most of the supply recorded at Kamuning Market and Galas Market were large-sized as customer have higher demand for them. 6. For Tilapia, the prevailing retail price also remained stable due to the sufficient supply and stable demand at the market. There is still Php20-30/kg difference between live and fresh-chilled tilapia. 7. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas c. Local Galunggong - Quezon Province, Navotas & Malabon Fish Ports d. Alumahan - Malabon Fish Port 8. The demand for fishery commodities were still low among the monitored markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets. 9. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.																										
			General Observations: Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena. 1. <i>Penaeus monodon</i> or Sugpo (Php600.00-750.00/kg) - Both lowest and highest prevailing price were recorded at Farmers Market. The difference in the price may be attributed to the difference in quality (in terms of freshness) where supply of Php600.00/kg were not in good quality while the supply of the price Php750.00/kg were in good quality and the size were almost medium-sized. 2. <i>Scylla serrata</i> or Alimango - mixed (Php320.00-500.00/kg) - lowest prevailing price of Php320.00/kg were recorded at Caloocan Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Navotas Fish port). Highest prevailing price of Php500.00/kg were noted from secondary Market, Guadalupe market which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. 3. <i>Decapterus macrosoma</i> or Galunggong - lalaki (Php140.00 & 240.00/kg) - lowest prevailing price of Php140.00/kg were recorded at Pasig and Malabon Markets which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Navotas Fish port). Highest prevailing price of Php240.00/kg were noted from secondary Market, Marikina and Guadalupe Markets which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. 4. <i>Acetes</i> sp. or Alamang (Php60.00/kg & 160.00/kg) - lowest prevailing price of Php60.00/kg were recorded from Malabon Market where supplies are mainly sourced from Malabon Market. Highest prevailing price of Php160.00/kg was noted at Marikina Markets where available supplies were in good quality sourced from Lucena, which resulted to a higher price. 5. <i>Acetes</i> sp. or Alamang (Php100.00/kg & 200.00/kg) - lowest prevailing of Php100.00/kg was observed at Balintawak market wherein supplies reported were smaller in size and imported resulting to lower price. Highest prevailing price of Php200.00/kg which are noted at Marikina Market have larger sizes, hence the higher price. 6. <i>Pterocaesio tile</i> or Dalagang Bilog (Php100.00-280.00/kg) - Both lowest and highest prevailing price were recorded at Commonwealth Market. The difference in the price may be attributed to the difference in quality (in terms of freshness) and size where supply of Php100.00/kg were not in good quality while the supply of the price Php280.00/kg were in good quality and larger size.
