Remarks/Market Observations: The following observations were gathered from market personnel and vendors this week: 1. Generally, adequate volumes of fresh marine commodities were observed among the monitored retail markets this week. More specifically, for local-fresh galunggong lalaki (<i>Decapterus macrossoma</i>), ample volumes of medium-sized commodity were recorded this week at prevailing retail price of Php240.00/kg sourced mainly from Lucena (Quezon), Malabon, and Navotas Fish Ports. There are also other local galunggong variants available like "balsa" (<i>Decapterus macarellus</i>) and "burot" (<i>Decapterus kurroides</i>) recorded this week. 2. Minimal supply of medium-sized imported-frozen galunggong lalaki was observed at the monitored retail markets this week. In fact, only three (3) retail markets (Quinta, Mega-Q, Munoz) were recorded to have an available supplies at the market this week. The low supply may be attributed to the sufficient supply of local-fresh galunggong at the monitored market. Some of the vendors still prefer selling imported-frozen galunggong due to its cheaper price making it easier to sell. 3. Adequate supply of medium-sized alumahan was observed at the monitored retail markets this week. Most of the supplies recorded were still large-sized sourced mainly from Lucena (Quezon), Malabon Fish Port, and Navotas Markets. Prices sourced from Lucena (Quezon) are higher due to its better quality (in terms of freshness). 4. The prevailing retail price of bangus remained stable at Php160.00/kg this week due to the sufficient supply and stable demand at the monitored retail markets this week. Some retail markets (Kamuning, Galas & Quinta) prefer selling larger size due to higher demand from the consumers/buyers. 5. No changes were also recorded at the prevailing retail price of tilapia this week. This may be attributed to the sufficient supply and stable demand at the market. There is still Php20-30/kg difference between live and fresh-chilled tilapia. Also, there is a price difference between tilapia from Pampanga and tilapia sourced from Batangas. 6. The weather condition this week remained rainy due to the effects of Tropical Depression "Ester". 7. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: a. Bangus - Bulacan, Pangasinan b. Tilapia - Batangas c. Local Galunggong -Quezon Province, Navotas & Malabon Fish Ports d. Alumahan - Malabon Fish Port 8. Low influx of buyers was continuously observed among the monitored markets today. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets. 9. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine- Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others.																										
			General Observations: Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena. 1. <i>Gerres oyena</i> or Latab (Php220.00-380.00/kg) - lowest prevailing price of Php220.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php380.00/kg were noted from secondary Market, Guadalupe market which sources their supplies from nearby primary markets (i.e., Farmers), resulting to relatively higher prices. 2. <i>Jagora asperata</i> or Suso pilipit (Php100.00-200.00/kg) - lowest prevailing price of Php100.00/kg were recorded at Malabon Market which usually offers a lower price as it directly source their supplies to nearby wholesale markets (i.e., Malabon Fish port). Highest prevailing price of Php200.00/kg which are noted at Marikina Market have larger sizes, hence the higher price. 3. <i>Pagellus centrodontus</i> or Bakoko (Php300.00/kg - 400.00/kg) - lowest prevailing price of Php300.00/kg were recorded from Malabon Market where supplies are mainly sourced from Malabon Market. Highest prevailing price of Php400.00/kg was noted at Guadalupe Market where available supplies were in good quality sourced from Lucena, which resulted to a higher price. 4. <i>Siganus canaliculatus</i> or Malaga (Php300.00/kg & 400.00/kg) - lowest prevailing price of Php300.00/kg were recorded from Mega-Q Market where supplies recorded were not in good quality. Highest prevailing price of Php400.00/kg was noted at Farmers Market where the supplies were in good quality and larger size.																							
			(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring. NA - Source Area not available during price monitoring
