Remarks/Market Observations:	<p>The following observations were gathered from market personnel and vendors this week:</p> <ol style="list-style-type: none"> Overall, minimal volumes of fresh marine commodities were observed among the monitored retail markets this week. This could have been due to the inclement weather condition caused by the Low Pressure Area (LPA) in Southwest of Hinatuan, Surigao del Sur, and Southwest Monsoon affecting the Western section of Luzon as well as the occurrence of full moon on 11 August 2022. Nevertheless, supplies of medium-sized local-fresh galunggong lalaki (<i>Decapterus macrosoma</i>), were available and sufficient for the consuming public. Moreover, it was reported that the commodity was obtained from Malabon Fish Port and Navotas Fish Port. For imported-frozen galunggong lalaki (<i>Decapterus macrosoma</i>), only three (3) markets (i.e., Mega-Q, Balintawak, and Muñoz) have recorded medium-sized of the commodity this week derived from Navotas Fish Port. Medium-sized alumahan continued to be apparent at the retail markets this week at prevailing price of Php240.00/kg, supplies were chiefly sourced from Malabon Fish Port. No changes were recorded in the retail prices of medium-sized bangus and tilapia this week. The sustained prices may have been due to the adequate availability of the said commodities for the consuming public. Top fishery commodities in the eighteen (18) monitored retail markets are sourced mainly from the following areas: <ol style="list-style-type: none"> Bangus - Dagupan, Bulacan Tilapia - Batangas Local Galunggong - Malabon and Navotas Fish Port Alumahan - Malabon and Navotas Fish Port Low influx of buyers was continuously observed among the monitored markets this week. As a result, vendors are coping by selling lower volumes and limited varieties of fishery commodities to ensure that all supplies are sold out by the end of the day. Meanwhile, some vendors are opening on an alternate day schedule or during market days (Friday-Sunday) where there are more people in the monitored markets. Market administrators continue to strictly implement precautionary safety measures in the monitored markets to ensure the consumers and vendors safety and avoid the further spread of highly infectious COVID-19 OMICRON variant in accordance with the General Community Quarantine-Alert Level 1 guidelines. Among these measures are the mandatory wearing of face masks, social distancing and regular schedule of cleaning and disinfection in the markets, and among others. 																																		
	<p>General Observations:</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <p>Fluctuation in the prices of the top fifteen (15) and other commodities is influenced by a number of factors such as the commodity's size, quality, volume of supply, source area, as well as the weather condition and other natural phenomena.</p> <ol style="list-style-type: none"> <i>Epinephelus</i> spp. or Lapu-lapu (Pula) - (Php280.00, 300.00, 550.00/kg)- both prices were noted in Muñoz market, wherein the lowest prevailing price of Php280.00/kg were observed to have smaller size as compared to the highest recorded price of Php550.00/kg which are noted to have larger size sourced from Lucena, Quezon. <i>Jagora asperata</i> or Suso pilipit- (Php100.00 - 200.00/kg)- Similarly, smaller sizes of the commodity were noted in Malabon Central market wherein recorded lowest prevailing price of Php100.00/kg sourced from Malabon Fish Port. Meanwhile, the highest prevailing price of Php200.00/kg were observed larger sizes of the commodity noted in Marikina market sourced from Cavite. <i>Scarus</i> spp. or Mul-mol- (Php70.00-200.00/kg)- Variation of sizes were also noted in the supplies of the commodity in Navotas retail markets this week. Wherein, the highest recorded price of Php200.00/kg was observed larger sizes hence offer in a premium price as compared to the lowest recorded price of Php70.00/kg which are noted to be smaller in size. 																																		
<p>(-) - Price and Volume not available during price monitoring (*) - Actual Price - price data collected did not reach the minimum requirement of three (3) samples per commodity per market. This could be due to limited volumes or no available supplies at the time of monitoring.
