| Remarks/Market Observations | <p>The following observations were gathered during the actual price monitoring activities:</p> <ol style="list-style-type: none"> The prevailing retail price of bangus remain stable due to the sufficient supply at the monitored retail markets. The price difference among the monitored retail markets may be attributed to the difference in the source area. Moreover, the retail price of bangus sourced from Dagupan is higher compared to bangus sourced from Bulacan. For tilapia, the prevailing retail price also remained stable. The lowest retail price for medium to large-sized tilapia at Pp110.00/kg was recorded in Pasig Mega Market where high volume of supply was observed. Most of the supply was mainly sourced from Batangas. There was a sufficient supply of fresh marine commodities observed in the monitored retail markets, however, retail prices were still noted to be relatively high. The high retail prices of fresh marine commodities may be attributed to the continuous increase in petroleum gas price. Also, prices of commodities sourced directly from Quezon are higher due to its better quality (in terms of freshness) compared to supplies from Navotas Fish Port and Malabon Fish Port where longer travel time affects the freshness of the commodities. There is an increase in the supply of local galunggong resulting in a decrease in the availability of imported galunggong. Only one market has imported galunggong (Pasig Mega Market). Fewer number of buyers were observed inside of some retail markets due to the high number of informal vendors selling outside the market offering lower prices (since no stall is rented). Temporary suspension of price monitoring activity among BFAR Central Office-monitored retail markets on August 15 to 19 due to the conduct of National Training of Trainers on Community Organizing for BFAR Marketing Personnel. Top Fishery Commodities in the 7 monitored retail markets in the NCR are sourced mainly from the following areas: <ul style="list-style-type: none"> a) Bangus - Bulacan & Dagupan b) Tilapia - Batangas & Pampanga c) Local Galunggong - Malabon Fish Port, Navotas Fish Port & Lucena d) Ilumahan - Navotas Fish Port and Malabon Fish Port | | | | | | | | | | | | |
